SPECIAL TOWN MEETING
March 6, 1944

Pursuant to a warrant duly issued a Special Town meeting of the inhabitants of the Town of Weymouth represented by its duly elected and qualified Town Meeting members was held in the hall of the Weymouth High School, East Weymouth on Monday, March 6, 1944.

197 Town Meeting members were checked by the police.

The meeting was called to order at 7:30 o'clock in the evening by William J. Holbrook, Annual Moderator. The attested copy of the warrant for the meeting was read by the Town Clerk. Mr. Lane moved that the reading of the Article be dispensed with. So Voted.

The Reverend Jordan, Pastor of the First Church of Weymouth was called upon to invoke the Blessing of the Ruler of the Universe upon the deliberations of the meeting.

Two Town Meeting members not previously sworn to the duties of their office were at this time sworn by the Moderator. The Moderator then called for the Article in the Warrant.

ARTICLE 1. Mr. George Lane for the Appropriation Committee moved: That the Town accept the several reports of the Selectmen Laying out as Town ways the following designated private ways and parts of ways or any of them, to wit:

- (a) Sagamore Road from the northerly line of War Housing Project Mass. 19052 (Wessagusset Hill) to northerly line of Peddock Road

SPECIAL TOWN MEETING

March 6, 1944

Pursuant to a warrant duly issued a Special Town meeting of the inhabitants of the Town of Weymouth represented by its duly elected and qualified Town Meeting members was held in the hall of the Weymouth High School, East Weymouth on Monday, March 6, 1944.

201 Town Meeting members were checked by the police.

The meeting was called to order at 7:45 o'clock in the evening by the Annual Moderator, William J. Holbrook. The attested copy of the warrant for the meeting was read by the Town Clerk.

The Rev. Jordan, Pastor of the First Church of Weymouth was called upon to invoke the Blessing of the Ruler of the Universe upon the deliberations of the meeting.

Six Town Meeting members not previously sworn to the duties of their office were at this time sworn by the Moderator. The Moderator then called for the Article in the Warrant.

Mr. Allan C. Emery at this time asked indulgence of the Town Meeting members assembled while he read the letter mailed by the Laban Pratt Hospital Committee to each and every Town Meeting member. The letter reads as follows:

February 15, 1944

To Town Meeting Members of the Town of Weymouth:

Your Committee on the LABAN PRATT HOSPITAL would like to refer to its report made at the annual Town meeting in March 1942, from which we quote as follows:

"We recommend that, in order to insure the economical and efficient operation of the hospital and to remove it from political interference, a group of citizens be selected as incorporators of a hospital to be known as the Laban Pratt Hospital; and said corporators shall constitute the Board of Trustees, with powers to appoint its successors and operate the hospital as agents of the Town; and in order to effectuate this purpose it is recommended that the moderator appoint a board of fifteen citizens to act as such incorporators; and that a petition and act be prepared for introduction into the legislature as soon as the determination of all pending legislation may be consummated.

"We do not consider it necessary to arbitrarily have the number fifteen; but it is our opinion that this would be about the right number of citizens.

Granting that fifteen would be the number acceptable, we would Recommend that five be selected for one year, five for two years, and five for three years, etc. It might be well to have the number established divisible by three so that you would not have more than one-third turnover of the Trustees in any one year.

"This report of your committee having been accepted by the Town at the Annual Town Meeting in March, 1941, your Committee has requested our fellow member, our Town Counsel Judge Kenneth L. Nash, to draft an act for introduction into the legislature, thus carrying out the above-mentioned recommendation."

At the annual Town meeting in March 1942, it was voted that the Moderator be empowered to appoint a committee to petition the next Legislature for the enactment of enabling legislation contained in the committee's report and that the Moderator appoint the fifteen (15) incorporators provided for in the proposed legislation.

All of this was attended to in due season.

Judge Nash had previously drafted the bill using as a model the bill that was enacted for the operation of the Burbank Hospital at Fitchburg. This bill was judicially discussed in the case of Ware vs. Fitchburg in Volume 200 Mass., Page 61. The changes in the bill were made to make it adaptable to the Town of Weymouth.

That bill, Senate No. 411, bearing Senator Holmes' and Judge Nash's names, was introduced in the Legislature and eventually passed by the Senate. This was late in April or early in May of 1943. When the bill was taken up for action in the House, Mr. Cook of Athol of the Committee of Municipal Finance, on May 18th substituted a new bill, House No. 1751 for Senate No. 411. This latter bill provided in Section 3, lines 21, 22, 23 and 24 as follows:

"The Town shall annually, BY BALLOT, elect such number of trustees, for the term of three years each, as are necessary to fill any vacancies."

This additional provision to the original bill negatives the entire purpose of the act and throws into the general election for each year the selection of five members of the Board of Trustees, beginning the year after organization of the Board.

House No. 1751 later became Chapter 404 of the Acts of 1943. Section 9 of the latter act is as follows:

"This act shall take full effect upon its acceptance by a majority of the Town meeting members of the Town of Weymouth present and voting thereon at a meeting legally called for this purpose not later than five years after the date of the passage of this act, but not otherwise."

You will note that the above provision gives the Town until June 2, 1948, to accept the provisions of the act if it so chooses, but only at a meeting called "for this purpose".

Your committee is firmly of the opinion that it would be advisable for the Town on March the sixth, to consider this act and vote NOT to accept it, and to appoint a committee of say not less than five (5) members who would petition the Legislature at its special or regular session for enactment of the original act WITHOUT CHANGE.

In view of the experience that this bill met with in the House of Representatives, your committee recommends that the next time this bill is presented in the Legislature it be followed more closely as it goes through the House. It was not until after the acts of the Legislature were printed, which was months after this bill was passed, that your committee knew that the bill as presented by the town was not passed in its proper form by the Legislature.

Your committee feels sure that the citizens of the Town of Weymouth do not want the Laban Pratt Hospital to become a political football, therefore, it is very necessary that this bill as passed by the Legislature be NOT ACCEPTED by the Town but that a new bill be enacted by the legislature that will keep the Hospital out of politics and will conform to the wishes of the citizens of the town as previously expressed in its

annual town meetings.

Respectfully submitted.

LABAN PRATT HOSPITAL COMM.

ARTICLE 1. Mr. Emery, for the Laban Pratt Hospital Committee moved: That the Town vote to reject House Bill No. 1751 of 1943 Chapter 404, Acts of 1943 and that the Moderator be instructed to appoint a committee of not less than five to petition the next regular session of the Legislature on behalf of the Town for enactment of Senate Bill No. 411 of 1943.

Mr. Prince H. Tirrell spoke on the question and moved: to accept Chapter 404 of the Acts of 1943 as thus enacted.

Amy Hill Duncan spoke on the question endeavoring to enlighten the members present on the passage of the Laban Pratt Hospital bill in its progress through committees and both branches of the Legislature.

Senator Newland H. Holmes spoke on the question with reference to the bill as originally drawn and the changes made therein.

Mr. Allan Emery at this time requested Judge Kenneth L. Nash to speak on the question as a member of the Laban Pratt Hospital Committee.

Judge Kenneth L. Nash read and cited the case of the Fitchburg Hospital as an explanation to the Town Meeting.

Mr. Alfred K. Martin moved the previous question, whereupon the Moderator asked for a vote on the previous question and declared the previous question prevailed.

Mr. Francis Gunn spoke for the acceptance of the bill in its present form.

Mr. George E. Lane spoke with regards to the keeping of politics out of the Laban Pratt Hospital Trustees.

Mr. Robert H. Buchan spoke on the question.

Time for debate in the previous question having expired, the Moderator then called for action on the motion of Mr. Emery and declared the motion prevailed.

Mrs. Duncan doubted the vote. More than seven having doubted the Moderator appointed the following tellers, Mr. Oberlin Clark, Mr. Cedric Watson, and Mr. John Field to tabulate the vote by a showing of hands.

The Moderator then swore in the tellers.

The tellers reported as follows:

In favor of Mr. Emery's motion: 137

Opposed to Mr. Emery's motion: 43

whereupon the Moderator declared the motion of Mr. Emery as so voted.

Mr. George E. Lane moved to adjourn. So voted.

Meeting duly adjourned at 8:50 P.M. without date.

Mr. Cate at this time moved to recess for ten minutes. Motion Lost.

ANNUAL TOWN MEETING

March 6, 1944

Pursuant to a warrant duly issued the annual meeting of the inhabitants of the Town of Weymouth represented by its duly elected and qualified Town Meeting Members was held at the hall of the Weymouth High School, East Weymouth on Monday, March 6, 1944.

219 Town Meeting Members were checked by the police.

The meeting was called to order at 8:45 o'clock in the evening by

William J. Holbrook, Annual Moderator. The attested copy of the warrant for the meeting was read by the Town Clerk.

The Reverend Jordan, Pastor of the First Church of Weymouth was called upon to invoke the Blessing of the Ruler of the Universe upon the deliberation of the meeting.

Two Town Meeting Members not previously sworn to the duties of their office were at this time sworn by the Moderator.

The Moderator then called for the articles in the warrant and Mr. Lane of the Appropriation Committee moved that the reading of the articles in the warrant be dispensed with. So voted.

At this time Mr. John William O'Donnell asked unanimous consent to present to the Town Meeting Members assembled, a resolve.

Unanimous consent prevailed.

Be it resolved that:

Whereby order issued today the Office of Price Administration has removed the Chairman of the Weymouth War Price and Rationing Board for a reason that is neither sound, just or in accordance with the facts, We the Representatives of the People of Weymouth in Town Meeting assembled do hereby make solemn protest against the arbitrary and dictatorial character of this action of the Office of Price Administration.

The reason given for this removal is that the Chairman of the Weymouth War Price and Rationing Board is engaged in Political activity by being a candidate for the office of Town Meeting Member.

Everyone acquainted with the facts is aware that service as a Town Meeting Member has no political aspect whatsoever. It is a Public Service rendered to the Town without compensation. The ruling therefore is clearly wrong and should be immediately revoked.

To accomplish that end it is hereby voted:

That a copy of this resolution be sent to the President of the United States and each member of Congress from Massachusetts and that the Moderator appoint a committee of three to take appropriate action to see that this order is immediately revoked.

In taking this action we will show our appreciation of the excellent work performed by the entire Weymouth War Price and Rationing Board in giving of their time and effort to help the war effort and thereby assisting in the successful prosecution of the War.

Like action to be taken by the committee to be appointed by the Moderator in the removal, for the same reason, of any other member of the Weymouth War Price and Rationing Board.

This resolution unanimously adopted at the Annual Town Meeting, March 6, 1944 by the duly elected and qualified sworn Town Meeting Members there assembled.

Mr. Lane for the Appropriation Committee moved:

That the report of the Appropriation Committee containing its motions to be offered at this meeting, as shown in printed form, be now recorded as received. So voted unanimously.

REPORT TO THE WEYMOUTH TOWN MEETING

The Committee appointed by the Moderator at the special town meeting held on November 30th, 1942 herewith makes their final report on the widening of Derby Street at the junction with Pond Street, and also the construction of the parking area on Derby Street opposite same.

This committee, not having been discharged after its report at the last regular town meeting, felt you would be interested to know the result of your vote to go ahead with these projects.

We are glad to inform you that the vacant building at this junction has been removed, Derby Street widened and hairpin turn eliminated. It is now a safe intersection, the entire area much improved in appearance, and congestion relieved.

We have received a letter from the bus company expressing their appreciation—the drivers reporting it much safer and saves much time making a get-away from the station.

The Street Department have cooperated with us and have completed a real parking area, easy of entrance and exit. Over thirty-five cars have been counted at one time parked therein. The "no parking" signs on Pond Street at this point have made the job complete, and the snow plow can now finish its job without hindrance.

The committee believe that it is a good job well done and hope you will feel the money appropriated has been well spent.

We move this report be accepted and the Committee discharged.

REPORT OF ELECTRIC LIGHTING COMMITTEE

December 31, 1943
Weymouth, Mass.

To the Honorable Board of Selectmen:

This year, the same as last year, the activities of this committee have been curtailed by an order of the War Production Board preventing any extension of street lighting service except in especially dangerous locations. Therefore, the regular service has been maintained. In addition, on December 1, fourteen new 600 C. P. lights were added at the Back River Bridge, the wiring and the fixtures having been furnished by the Navy Department.

For 1944 we are asking for \$38,657.16, which will maintain the present service and allow us to increase the lighting, which has been requested by the Massachusetts Department of Public Works, on Bridge Street between Neck Street and the Back River Bridge.

If the restriction on the extension of lines is released during 1944, it will be necessary to ask the Appropriation Committee for additional funds before any new lights can be installed.

The War Department has released slightly the dim-out restrictions, which we expect will allow the Black-out Officer to remove the shades from a few lights in the most hazardous places.

Respectfully submitted,

Joseph Kelley, Chairman

Alfred S. Tirrell

Walter R. Field

Olindo Garofalo

J. Herbert Libbey, Clerk

WEYMOUTH COMMITTEE ON PUBLIC SAFETY

Report for the year 1943

During the year 1943 your Committee on Public Safety has functioned again under the direction of the Office of Civilian Defense at Washington and the Massachusetts Committee on Public Safety.

Our trained personnel showed a substantial increase during the early part of the year when training programs remained in force, until we reached a maximum enrollment in our own and affiliated branches of 3099 persons, each of whom had completed the training necessary for his or her particular branch of service, and had subscribed to the regulation oath of office.

Our courses of training were supplemented with and later supplanted by field exercises in which the various branches coped with "incidents" which presupposed disaster attended by casualties and property damage, threat to safety and other dangers that might accompany a bombing or other enemy action.

Many of these incidents were very complicated and called for ingenious reasoning and application of the lessons gathered from training sessions, but on the whole the personnel and those having the responsibility of its direction gave an excellent acquittal of themselves, leaving no fear or doubt but that if a real danger was encountered they were prepared to meet it.

On one occasion when serious tragedy visited our town, our emergency hospital at the High School was promptly pressed into service and its personnel met every requirement the occasion called for, providing emergency care and prompt medical and surgical treatment until such time as the victims could be absorbed into nearby hospitals. This occasion alone was enough to justify the maintenance of that particular emergency hospital.

This was one instance where our services were made available to the local Red Cross under an efficient working arrangement which we have with that organization.

We greatly appreciate the cooperation of the local Red Cross Chapter and its valued contribution to our general program.

Our State Guard Company has attained a high standing for its training and efficiency. In the organizing of this unit the Town expended

substantial sums for equipment, uniforms, arms, protective clothing and other necessary properties. We are pleased to report that the Commonwealth of Massachusetts has reimbursed the Town to the extent of \$2763.24 to offset this expenditure.

We are justly proud of our two uniformed companies of the Massachusetts Woman's Defense Corps, one of which has been a mobile unit and the other a security unit. Their training and efficiency has caused both to stand out effectively, and their instant readiness for duty has proved a dependable guarantee of service to the people of Weymouth.

Toward the latter part of the year operation of the Spotter's Tower was suspended. This had been carried on since the outbreak of hostilities under the able direction of the members of Weymouth Post No. 79 of the American Legion.

We acknowledged with gratitude the services of the Boy Scout organizations, many of whose members are enrolled as Couriers and all of whom have been available during our test exercises and for assistance in the Report Centre.

Much material from the Office of Civilian Defense has been made available. This consisted mainly of protective helmets, protective clothing for fire fighting forces and decontamination units, trailer pumps, skid-pumps and a front-end pump for the auxiliary fire forces, hose couplings, ladders, hooks, axes and other incidentals for fire fighting, gas masks, booster hose, hand pumps, brassards and assorted equipment. This is of good quality and is of distinct help to our forces. Much of it, we hope, will be allowed to remain permanently in our possession.

Expenditures during the calendar year of 1943 were confined for the most part to maintenance of service and equipment, with little expenditure for capital investment. With the current success of our armed forces in all theatres, the present likelihood of bombing or enemy action seems remote; but we have a trained organization equipped to meet any emergency that may arise, and our general policy will be to maintain it with a view of protecting ourselves in the event of any unforeseen disaster or casualty.

Again, the thanks of the Committee go out profusely to the many town officials, committee members and loyal citizens of Weymouth whose sacrifice in time, energy and material has contributed so whole-heartedly to this most important war responsibility.

Respectfully submitted,

ALFRED C. SHEEHY, Chairman

HERBERT W. CAUSER, Vice-Chairman

HELEN J. HUNT, Secretary

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 5. Moved: That the Town Treasurer with the approval of the Selectmen be and hereby is authorized on and after January 1, 1945 to borrow such money from time to time in anticipation of the revenue of the fiscal year beginning January 1, 1945 and to issue a note or notes therefore payable within one year from the date of issue, and that any debt or debts incurred under this vote be paid from the revenue of the fiscal year in which they were contracted.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 6. Moved: No action.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 7. Moved: That the Selectmen be authorized to sell or otherwise dispose of personal property and any real estate of which the Town has possession or title including all property taken for non-payment of taxes, all such cases of sale to be made by public auction or private sale as the Selectmen may deem for the best interest of the Town and that the Board or Office in charge of any other Town Depart-

ment may with the approval of the Board of Selectmen, sell at public auction or private sale as the Board of Selectmen may approve, any personal property belonging to said Department which in the opinion of the Officer or Board in charge of the Department is no longer needed by the Town and which in the opinion of the Selectmen is not needed by any other Town Department.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 8. Moved: That the Board of Selectmen be authorized to accept conveyances or mortgages of any real or personal property belonging to persons receiving relief from the Town and to dispose of said property under the provisions of Article 7 of this warrant in such manner as they may judge for the best interest of the Town and where said property is subject to any encumbrances if they consider it for the best interest of the Town to discharge said encumbrances, they are hereby authorized to do so.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 9. Moved: That the Town accept the report of the Selectmen laying out the following ways, to wit:

Brewster Road

Raleigh Road

Rucille Avenue

Raycroft Avenue

Edgeworth Street Extension from Section 28-50

Hitchings Street from Homestead Avenue to dead end

Kingman Street Extension to Front Street

and that the Board of Selectmen be authorized to acquire by gift of purchase or take by right of eminent domain in fee or otherwise for all purposes of a public street or highway in and over said street or streets as so laid out and accepted and that the sum of \$8625.00 be raised and appropriated for materials and the acquisition of the foregoing taking, gift, or purchase including all damages; provided further that they may build bridges, drains or conduits and secure any easements which may be necessary and the Board of Selectmen are hereby authorized to accept deeds of any reservations strips existing in connection with any of said streets; and provided further that no work shall be done on any of these streets until at least 90% of the abutters, or 100%, if in the opinion of the Town Counsel that becomes necessary, have signed, executed and delivered to the Town Counsel proper releases. Provided further that the final naming of those streets when accepted must meet with the approval of the Planning Board, and the work on these streets shall be performed under the direction of the Supt. of Streets.

Mr. Norris moved to amend the motion of the Appropriation Committee as follows: By adding to this list of streets Clematis Ave. from Pleasantview Ave. Easterly to Idlewell Boulevard.

Upon vote, Mr. Norris' amendment was declared lost by the Moderator.

The vote was doubted. More than seven having doubted, the moderator called upon tellers Clark, Watson and Field to tabulate by a showing of hands.

Tellers report as follows: Affirmative 32, Negative 57.

Mr. Basil Warren moved: To amend to include Judson Road on the list of streets to be accepted and that the sum of \$2165.00 be added, making the total appropriation \$10,790.00. \$10,790.00

Mr. Kelly at this time stated that Judson Road was ready for acceptance.

Mr. Warren's amendment, upon vote, was declared so voted.

Mr. Norris moved reconsideration of the action taken on Clematis Avenue.

Upon vote, the moderator declared reconsideration denied.

The vote was doubted. More than seven having doubted, the Moderator called upon tellers Clark, Watson and Field to tabulate by a showing

of hands.

Tellers reported as follows: Affirmative 58, Negative 49.

Reconsideration prevailed.

The Moderator then called for the question on the amendment to include Clematis Avenue with the list of streets to be accepted.

The amendment was declared lost by the Moderator.

Motion of the Appropriation Committee as offered by Mr. Lane and thus amended by Mr. Warren, was unanimously voted.

ARTICLE 10. Moved: That the sum of \$1000.00 is hereby raised and appropriated for the work on Commercial Street, from Middle Street to Commercial Square, Front Street, from Washington Street to Federal Street, and Pleasant Street, from Washington Street to Pine Street provided that the State or County under Genral Laws (Ter. Ed.) Chapter 90 will pay a sum of money proportionate to the cost under the provision of said Chapter; provided that this work shall be performed by the Street Department; and provided that the Board of Selectmen is authorized to acquire by gift or purchase or take by right of eminent domain in fee or otherwise for all purposes of a public street or highway in and over said streets and that authority is hereby given for building any bridges, drains or conduits, or securing easements which may be necessary and that the Board of Selectmen is authorized to accept deeds or any reservation strips existing in connection with said streets; and provided further that all damages resulting or occasioned by the construction shall be a charge against the sum appropriated.

Mr. Lane moved to amend the original recommendation of the Appropriation Committee to include after the words PINE STREET, the words "and any other streets." Amendment unanimously voted.

Motion of the Appropriation Committee as offered by Mr. Lane and thus amended was so voted unanimously.

At this time a motion was made to adjourn to Wednesday night. The motion was lost.

ARTICLE 11. Moved.: That the committee on the widening of Broad Street be continued.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 12. Moved: No action.

Mr. Wm. B. Chalke, Jr. moved a substitute motion as follows: To see if the Town will vote to instruct the Moderator to appoint a committee of three to petition the General Court for an amendment to Chapter 61, Acts of 1921 as amended by striking out in Section three, wherever it occurs, the words "Members of the Appropriation Committee" and inserting therefor the words, "The Chairman of the Appropriation Committee."

Mr. Chalke's motion was declared lost.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 13. Moved: That the Town amend its bylaws by striking out Section 303 of Article III and inserting in place thereof the following:

"Sec. 303—The Planning Board is hereby re-established under the provisions of General Laws (Ter. Ed.) Chapter 41, Section 81A to 81J inclusive. The Board shall consist of seven members. At the next annual meeting after this amendment to the by-laws has become effective, two members shall be elected for five years, two for four years and one member each for three, two and one years respectively. At each annual meeting thereafter the terms expiring shall be filled for a term of five years."

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 14. Moved: That the Town adopt the following by-law:

Section 613—Noperson shall ride any animal or drive any coach, cart, wagon or vehicle upon any sidewalk in the Town. Whoever violates the provisions of this section shall forfeit and pay a sum not less than one dollar nor more than ten dollars for each offense.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 15. Moved: That the Town amend Section 703 of the By-Laws so as to read as follows:

Section 703—The inspector of Buildings, shall grant permits for the erection, or alteration, removal or tearing down of buildings, and no structure or foundation shall be built, altered, or torn down without such a permit, but no such permit shall be issued until the inspector has carefully examined the plans and specifications of the proposed building or alteration, and ascertained that the building has sufficient strength, that the means of ingress and egress are sufficient and the building conforms to the requirements of these by-laws.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 16. Moved: That the Town amend section 798 of the by-laws so as to read as follows:

Section 798—Permits for alterations, substantial repairs, tearing down of buildings, which require a permit, the erection of sheds, poultry-house and like small buildings valued at not exceeding one thousand dollars and not intended or used for human habitation \$1.00.

Motion of the Appropriation Committee as offered by Mr. Lane was so voted.

ARTICLE 17. Moved: That the Town instruct the Board of Selectmen to transfer to the control and supervision of the Weymouth School Committee whatever interest the town has in Lot 234 (on Lochmere Avenue Town of Weymouth tax title containing 7308 square feet).

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 18. Moved: That the Town authorize the Board of Selectmen on its behalf to accept as a gift from Mary Fifield King two steel engravings to be placed in the Town Hall and that they impart to the donor in behalf of the Town its appreciation of her generosity.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 19. Moved: That the Board of Selectmen be authorized to accept a bill of sale from the Steel Recovery Corporation, reconveying to the Town of Weymouth approximately six hundred (600) lineal feet of rail, together with track fastenings and other metallic track material appurtenant thereto, which will be left undisturbed in Washington Square, Weymouth in accordance with agreement submitted by the War Materials Incorporated to the Board of Selectmen.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 20. Moved: That the sum of \$2000.00 be raised and appropriated for an honor roll for the men and women enrolled in the present World War II and that the Committee be continued.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

Mr. Prince Tirrell read the report of the Honor Roll Committee which appears as follows:

To the Town Moderator and Town Meeting Members:

The Honor Roll Committee appointed by the Town Moderator has met regularly.

The first problem before the Committee was to obtain the names of all those in the service of their Country. By various sources the Committee now has cards representing approximately 1900 persons. It is the desire of this Committee that a printed list of these persons be made, distributed throughout the town and additional names be added where omissions are noted.

The next problem was the Honor Roll itself. Plans have been submitted, approved by the Committee and are to be presented to the Town Meeting on Monday, March 6, 1944.

Very little money appropriated for this Committee has been expended to date.

This Committee sincerely hopes that plans submitted tonight will be approved by the Town Meeting Members and that work may be started as soon as possible on the Honor Roll so that Weymouth can show these Service Men and Women that we are proud of each and every one of them.

Submitted by:

John Heffernan, Chairman
Beatrice Bicknell, Clerk
Prince Tirrell
Roland Haviland
Oberlin Clark

Question then came on the acceptance of the Committee's report. The Moderator then declared the report as accepted.

ARTICLE 21. Moved: That the sum of \$6100.00 be raised and appropriated for the erection of a section of a sea wall along Wessagusset Beach, between station 0x0 and 4x0 as shown by plans of Russell H. Whiting, Town Engineer, and dated September 23, 1935, entitled "Plan and Profile for proposed Sea and Retaining Wall." \$6100.00

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 22. Moved: That the Town raise and appropriate the sum of \$350.00 for the observance of Armistice Day to be expended under the direction of a committee of three (3) to be appointed by the Moderator chosen from the several veteran and hereditary organizations in accordance with the provisions of General Laws (Ter. Ed.) Chapter 40, Section 5, clause 12 as amended. \$350.00

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 23. Moved: That the sum of \$360.00 be raised and appropriated for the rental of Legion Hall Basement for use and occupancy of the 13th Company, 26 Infantry of the Massachusetts State Guard during the year 1944 and the Board of Selectmen are instructed to contract with American Legion Post No. 79 for this purpose. And that there be further raised and appropriated the sum of \$165.00 for payment to Weymouth American Legion Post No. 79 for closets and cabinets provided for the use of the State Guard. \$525.00

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 24. Moved: That there be appropriated from Surplus Revenue of the Town the sum of \$150,000.00 for the purchase of United States Treasury Bonds in accordance with the provisions of Chapter 5 of the Acts of 1943.

That the Town Treasurer, with the approval of the Board of Selectmen be authorized and instructed to purchase these bonds at a value not exceeding par.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 25. Moved: That the sum of \$7500.00 be raised and appropriated for the use of the POST WAR Planning Committee. \$5000.00 of this sum shall be used to complete plans for the construction of a sewerage system throughout the town and \$2500.00 may be used for further study of the recommendations made to the Board of Selectmen or any and all problems resulting from the present crisis. Provided further that the present POST WAR Planning Committee be continued and that its membership be increased to fifteen, appointments to be made by the present committee; and that said committee be further granted the authority to appoint special committees to study specific needs at their discretion. \$7500.00

Mr. Field moved an amendment to the recommendation of the Appropriation Committee as follows: That \$5000.00 be used to complete plans for the construction of a sewerage system throughout the town and out the period there.

The Moderator asked if he was correct in understanding that Mr. Field wanted the period to come after the word "town" and the next word "and" to begin with a capital A.

Mr. Field replied that that was right.

Mr. Field's amendment was so voted unanimously, after being read together with the motion of the Appropriation Committee by the Moderator. Motion of the Appropriation Committee, as offered by Mr. Lane and thus amended by Mr. Field was unanimously adopted.

ARTICLE 26. Action taken under Article 1, Item 30.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 27. Moved: That the Moderator appoint a committee of five (5) to petition the General Court at the next session for legislation to enable the Town to lay out, construct and maintain a system or systems of mains, drains and common sewers for the disposal of sewage, and to issue notes or bonds for the purpose of defraying the expense thereof.

Further: For the purpose of submission to the voters of said town. This act shall take effect upon its passage and it shall take full effect upon its acceptance by the majority of the legal voters of said town, present and voting thereon by ballot in their respective precincts at a town meeting called for the purpose within five years after its passage. At such meeting there shall be placed upon the ballot the following question: "Shall an act passed by the General Court entitled "An Act authorizing the Town of Weymouth to construct and operate a system of sewers, be accepted?"

No expenditure shall be made or liabilities incurred until such acceptance.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 28. Moved: That such funds as may be secured by the Weymouth Salvage Committee be returned to the Treasury.

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 29. Moved: That the Town raise and appropriate the sum of five-hundred fifty (\$550.00) dollars for the purpose of maintaining during the ensuing year the mosquito control works as estimated and certified to by the State Reclamation Board in accordance with the provisions of Chapter 112, Acts of 1931. \$550.00

Motion of the Appropriation Committee as offered by Mr. Lane was unanimously adopted.

ARTICLE 30. Moved: That the Town raise and appropriate the sum of \$50.00 for a reprinting of pamphlet entitled "An Act to Provide for

Precinct voting, representative town meeting, town meeting members, a referendum, and an annual Moderator in the Town of Weymouth" (Chapter 61, Acts of 1921). \$50.00

Mr. Lane moved to amend the motion of the Appropriation Committee to include after the amount of \$50.00 the words "to be expended by the Town Clerk".

Mr. Lane's amendment was so voted.

Motion of the Appropriation Committee as offered by Mr. Lane was so voted.

ARTICLE 31. Moved: That the sum of \$200.00 be raised and appropriated to be expended under the direction of the Board of Selectmen for the purpose of stocking the ponds and other inland waters within the Town, with fish and game, in accordance with Chapter 142 of the Acts of 1938 and amendments thereto. \$200.00

Mr. Theodore N. Waddell

Director of Accounts
Departments of Corporations and Taxation
State House, Boston
Sir:

In accordance with your instructions I have made an audit of the books and accounts of the treasurer of the town of Weymouth for the period from March 21, 1944, the date of the previous examination of his accounts, to July 18, 1944, the following report being submitted thereon:

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were analyzed, proved with

the deposits in the banks wherein town funds are kept, and checked with the town accountant's books and with the sources from which money was paid into the town treasury, while the payments were compared with the selectmen's warrants authorizing the treasurer to disburse town funds. The treasurer's cash balance on July 18, 1944, was compared with the cash and securities on hand and with the amounts on deposit in the several banks, this reconciliation showing an apparent shortage of \$15,000 in the treasurer's general cash as of July 18, 1944. This is due to the fact that a check for \$15,000 drawn by the treasurer on July 12, 1944, to transfer \$15,000 from the account of the town with the Second National Bank of Boston to the town's account with the Granite Trust Company, was not credited by the Granite Trust Company to the account of the town at this bank, although the Granite Trust Company collected the \$15,000 from the town's account with the Second National Bank of Boston.

Attached herewith is a photostatic copy of the above-mentioned cancelled check.

Furthermore, in the process of examining the accounts of the treasurer as treasurer of the municipal contributory retirement system, it was found, in reconciling the balance of the fund as called for by the books on July 18, 1944, with the cash in the banks and securities on hand, that an apparent shortage of \$10,000 existed as of July 18, 1944. This apparent shortage in the Retirement Fund is due to the fact that a check for \$10,000 drawn by the treasurer on July 11, 1944, payable to the Granite Trust Company for the purchase of Series G, U.S. Savings Bonds, was charged by the bank against the account of the Weymouth Retirement Board at the Granite Trust Company but no bonds have been delivered by the bank to the town.

Appended herewith is a photostatic copy of the above-mentioned check.

The town treasurer resigned on July 14, 1944, at which time he signed a statement to the effect that he had been gambling at the horse and dog races for several years with money belonging to the Granite Trust Company, by whom he had been employed for the past 15 years as manager of the East Weymouth Branch of the bank and that he had covered up the shortages at the bank by holding deposits from day to day without proper entry on the bank records. He stated further that in April, 1944, the shortage at the bank began to increase from day to day so that he covered up the shortage by replacing the funds taken from the bank with checks drawn by him on the account of the town of Weymouth, which checks up to July 11, 1944, were never put through for payment or converted into cash, but were simply used to balance the bank cash and were reported on his daily reports to the bank as cash although they were never cashed, thereby concealing his peculations at the bank. Furthermore, in his signed statement the treasurer admitted that on July 11 and 12 the checks for \$10,000 and \$15,000 previously referred to were put through for payment or were cashed at the Granite Trust Company and the proceeds used to cover his cash shortage at the bank.

On August 3, 1944, the town accountant wrote a letter to the Granite Trust Company inquiring as to the reason why the proceeds of the \$15,000 transfer check were not credited to the account of the town at the Granite Trust Company although the check had cleared through the town's account at the Second National Bank of Boston.

The following reply, in part, was received from the Granite Trust Company by the town accountant to his letter of August 3, 1944:

"... Our records show that this check was cashed at our East Weymouth branch office by George E. Curtin, at that time our teller at that office, and that we collected the amount of such check from the drawee, the Second National Bank of Boston.

As our records show that this check was cashed and

not deposited to the account of the Town of Weymouth at this bank, we have not credited the amount of this check to the account of the Town of Weymouth . . .”

On August 3, 1944, the town accountant, as secretary of the Weymouth Retirement Board, addressed a letter to the Granite Trust Company inquiring about the disposition of the \$10,000 check drawn against the funds of the retirement board at the Granite Trust Company for the purchase of Series G of United States Savings Bonds.

Below is an excerpt from the reply received by him from the Granite Trust Company:

“ . . . Our records do show that this check was paid in cash at our East Weymouth branch office by George E. Curtin, at that time our teller at that office, and that the amount of such check has been charged against your account with this bank. . . .”

The audits of the treasurer's accounts as of March 20, 1944, and as of July 18, 1944, showed that all funds of the town were fully and properly accounted for by the treasurer, with the exception of \$25,000 representing the proceeds of two checks cashed at the Granite Trust Company on July 11 and 12, 1944. The town accountant had also reconciled the treasurer's cash balance each month with the cash on hand and on deposit in the banks, these reconciliations showing that the town cash was intact and in agreement with the balances called for by the books and that none of the unauthorized checks referred to in the treasurer's statement had ever been put through for payment, with the exception of the two checks, previously referred to, which were put through in July. One of these checks for \$15,000 was drawn by the treasurer on the Second National Bank to the Granite Trust Company as payee, the check being marked "Transfer" indicating that there was to be a transfer of funds from the town's account at the Second National Bank to the credit of the town at the Granite Trust Company. Checks similarly drawn were issued by the town treasurer from time to time and were properly credited by the Granite Trust Company. As to the \$10,000 check drawn by the treasurer as treasurer of the Retirement System, there appear in the left hand corner of the check, under the printed words "By endorsement this check is accepted in full payment of the following account", the following words written in by the treasurer: "Series G Bonds", indicating that the proceeds of the check were intended to be used for the purchase of \$10,000 of Series G Bonds for the municipal retirement fund from the Granite Trust Company. The latter bank did not deliver the bonds to the retirement fund of the town, but instead cashed the checks for the treasurer who apparently used the proceeds to reimburse the bank for a shortage in his accounts as teller or manager in the bank, in accordance with his signed statement.

This is clearly a misuse of public funds, as they were used to pay a personal obligation of the town treasurer. Whoever cashed the town checks for the treasurer is presumed to have known that public funds may be used only for a legal or municipal purpose. If Curtin personally cashed the checks at the branch office of the bank, he did that as a bank employee, with full knowledge of his duties as a public official. All early and late court decisions dealing with this matter clearly point out the principle that if checks drawn on a municipal bank account are used in payment of personal debts of the town treasurer, the receiver of the checks are chargeable with notice of his misuse of town funds and are liable for the proceeds to the town:

“One who receives the check of a city in payment of an individual debt of its city treasurer has notice on the

face of the transaction that in the absence of express authority the check is invalid . . ."

Newburyport v. Fidelity Insurance Co.
197 Mass. 596

"A bank that accepts in payment of a personal obligation of a fiduciary, trust funds which it knows to be such, or, with notice that trust funds are being wrongfully diverted, joins in assisting others to misappropriate such funds, is bound to account to the trust estate for the loss thereby sustained."

Banks v. Everett National Bank
305 Mass. 182

"In the type of cases relating to public officials the statutory limitation upon the authority of the official to deal with public funds is presumed to be known by all, and a bank knowingly receiving funds from a public official under circumstances contrary to statutes is chargeable with notice of the violation and put upon inquiry to ascertain the truth . . ."

Employers Liability Assur. Corp.
v. Hudson River Trust Co.
250 App. Div. 159
294 N.Y.S. 698,704

The books and accounts of the treasurer, as collector of water charges, were examined and checked in detail. The commitments were analyzed, the recorded collections were compared with the payments to the treasurer, and the outstanding accounts were listed and proved with the accountant's ledger accounts. Verification of the outstanding accounts was made by mailing notices to a large number of persons whose names appeared on the books as owing money to the town. Replies received from a number of consumers to the effect that their water bills were paid were investigated, and it was found that all such payments were made subsequent to the audit date of July 18, 1944. It would appear, therefore, that the outstanding accounts, as listed, are correct.

Appended to this report are tables showing a reconciliation of the treasurer's cash, summaries of the tax title and water accounts, as well as tables showing the condition of the trust, investment, and retirement funds.

For the cooperation received from the several town officials while engaged in making this examination, I wish, on behalf of my assistants and for myself to express appreciation.

Respectfully submitted,

REPORT OF AN AUDIT
OF
THE ACCOUNTS OF
THE TOWN OF WEYMOUTH
FOR THE PERIOD FROM MAY 9, 1941 TO MARCH 20, 1944

Made in Accordance with the Provisions of
Chapter 44, General Laws

August 24, 1944

To the Board of Selectmen
Mr. Harry Christensen, Chairman
Weymouth, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the town of Weymouth for the period from May 9, 1941 to March 20, 1944, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

Theodore N. Waddell
Director of Accounts

TNW:MMH:FC

Mr. Theodore N. Waddell
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

As directed by you, I have made an audit of the books and accounts of the town of Weymouth for the period from May 9, 1941, the date of the previous audit, to March 20, 1944, and report thereon as follows:

The records of financial transactions of the several departments receiving or disbursing money for the town, or committing bills for collection, were examined, checked, and verified by comparison with the reports and the records of the town accountant.

The books and accounts kept by the town accountant were examined, the appropriations and transfers being checked with the town clerk's records of town meetings and with the appropriation committee's record of transfers from the reserve fund. A balance sheet, showing the financial condition of the town on March 20, 1944, was prepared and is appended to this report. This balance sheet indicates that the town is in very good financial condition.

The books and accounts in the treasurer's department were examined and checked. The recorded receipts were analyzed and compared with the town accountant's ledger and with the records of the departments making payments to the treasurer, while the payments by the treasurer were checked with the selectmen's warrants authorizing the disbursement of town funds.

The cash balance as of March 20, 1944, was proved by reconciliation of the bank balances with statements furnished by the banks of deposit, by verification of savings bank books, of cash on hand and in transit, and by inspection of securities which are part of the treasurer's cash.

The recorded payments of maturing debt and interest were checked with the amounts falling due and with the cancelled securities on file.

The savings bank books and securities representing the investment of the trust, investment, and retirement funds in the custody of the town treasurer were examined and listed, the income was proved, the transfers to the town and the disbursements were verified, and all funds as of March 20, 1944, were found to have been properly accounted for.

The tax titles taken by the town for unpaid taxes were examined and the amounts added to the tax title account were compared with the collector's records. The reported redemptions were checked with the receipts as recorded on the treasurer's and the accountant's books, the reported foreclosures were verified, and the tax titles on hand were listed, proved, and compared with the records in the Registry of Deeds.

It is recommended that the town treasurer, who is custodian of tax title deeds, keep a complete record of each tax title acquired by the town on approved forms.

As stated previously, part of the treasurer's cash is invested in United States war bonds which are carried at the cost value of \$50,021.70, including accrued interest. In this connection, attention is called to the fact that the only statutory authority for the investment of town funds, other than trust funds, in war bonds is found in Chapter 4, Acts of 1942, and Chapter 4, Acts of 1943, which require a specific vote of the town meeting.

The books and accounts in the tax collector's department were examined and checked. The taxes outstanding at the time of the previous examination and all subsequent commitments were audited and reconciled with the assessors' warrants issued for their collection. The payments to the treasurer were checked to the treasurer's cash book, the recorded abatements were compared with the assessors' record of abatements granted, and the outstanding accounts were listed and proved.

The assessors' computations of the tax rates for 1943 and 1944 were examined and checked and it was noted that a number of appropriations from available funds voted by the town were not considered by the assessors in the determination of the tax rates.

In this connection attention is called to Section 23, Chapter 59, General Laws, which requires that the assessors raise all sums appropriated since the last preceding annual tax assessment, and which also provides that deductions on account of appropriations voted from available funds in the treasury may be made by the assessors only upon the written approval of the Commissioner of Corporations and Taxation. All appropriations voted by the town, whether they are to be raised by taxation, or transferred from available funds in the treasury, should therefore be certified by the town clerk to the assessors, as required by Section 15-A, Chapter 41, General Laws.

The records of departmental and water accounts receivable were examined and checked in detail. The recorded payments to the treasurer were compared with the treasurer's cash book, the abatements were verified, and the outstanding accounts were listed and proved.

The financial accounts of the town clerk were examined. The records of dog and sporting licenses were checked, the payments to the State being verified with the receipts on file and the payments to the town treasurer being compared with the treasurer's cash book.

The surety of the several town officials required to file bonds for the faithful performance of their duties were examined and found to be in proper form.

The records of licenses and permits issued by the selectmen, by the building and plumbing inspectors, and by the board of health were examined and checked and the payments to the town treasurer were verified.

The accounts of the sealer of weights and measures and of the school department, as well as of all other departments collecting money for the town or committing bills for collection, were examined, checked, and reconciled with the treasurer's books.

In addition to the balance sheet referred to, there are appended to this report tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, tax title, departmental, and water accounts, as well as tables showing the condition and transactions of the trust, investment, and retirement funds.

While engaged in making the audit, cooperation was received from the

officials of the town, for which, on behalf of my assistants and for myself,
I wish to express appreciation.

Respectfully submitted,
Herman B. Dine
Assistant Director of Accounts

QUESTIONS

Question 1.

PROPOSED AMENDMENT TO THE CONSTITUTION

Shall an amendment to the constitution to provide for a Fair, Concise Summary, instead of a Description, of Each Proposed Amendment to the Constitution and Each Law submitted to the People, under the Initiative and the Referendum, and Certain Changes relative to the Filing of Initiative Petitions which is further described as follows:-

This amendment amends Article XLVIII of the Amendments to the Constitution by striking out section three under the heading "The Initiative 11. Initiative Petitions" and inserting in place thereof a new section which provides,—

That an initiative petition for a constitutional amendment or a law shall first be signed by ten qualified voters of the Commonwealth and shall be submitted to the Attorney General not later than the first Wednesday of the August before the assembling of the General Court into which it is to be introduced. It may be filed with the Secretary of the Commonwealth if the Attorney General shall certify that the measure and its title are in proper form and that it is not, affirmatively or negatively, substantially the same as any measure which has been qualified for submissions or submitted to the people at either of the two preceding biennial state elections, and that it contains only subjects not excluded from the popular initiative and which are related or which are mutually dependent.

The Secretary shall provide blanks for the use of subsequent signers. He shall print at the top of each blank a fair, concise summary of the proposed measure, as determined by the Attorney General as it will appear upon the ballot, together with the names and residences of the first ten signers. All such petitions, with the first ten signatures attached, shall be filed with the Secretary not earlier than the first Wednesday of the September before the assembling of the Legislature into which they are to be introduced, and the remainder of the required signatures shall be filed not later than the first Wednesday of the following December.

Section 3 of that part of said Article XLVIII under the heading "The Referendum. 111. Referendum Petitions." is also amended by striking out the second sentence of such section and inserting in place thereof provisions that the Secretary shall provide blanks for the use of signers of a referendum petition on a law requesting that the operation of such law be suspended subsequent to the first ten signers and shall print at the top of each blank a fair, concise summary of the proposed law as determined by the Attorney General as it will appear upon the ballot, together with the names and residences of the first ten signers.

Section 4 of that part of said Article XLVIII under the heading "The Referendum. 111. Referendum Petitions.", is also amended by striking out the third sentence of such section and inserting in place thereof provisions that the Secretary shall provide blanks for the use of signers subsequent to the first ten signers of a referendum petition asking for the repeal of an emergency law or of a law which takes effect because the referendum petition does not contain a request for suspension, and shall print at the top of each blank a fair, concise summary of the proposed law as such summary will appear on the ballot together with the names and residences of the first ten signers.

Article XLVIII is further amended by striking out subheading "111. Form of Ballot" and subheading "IV. Information for Voters" under the heading "General Provisions" and inserting in place thereof new subheadings III and IV, which provide, respectively:

III. FORM OF BALLOT

A fair, concise summary of each proposed amendment to the Constitution and each law submitted to the people, as determined by the Attorney General shall be printed on the ballot. The Secretary shall give each question a number and cause such question, except as otherwise authorized in said article of amendment to be printed on the ballot in the following form:

In the case of an amendment to the constitution: Do you approve of the adoption of an amendment to the constitution summarized below, (here state, in distinctive type, whether approved or disapproved by the general court, and by what vote thereon)? Yes.—NO.

(Set forth summary here)

In the case of a law: Do you approve of a law summarized below, (here state, in distinctive type, whether approved or disapproved by the general court, and by what vote thereon)? Yes.—No.

(Set forth summary here)

IV. INFORMATION FOR VOTERS

The Secretary shall print and send to each registered voter the full text of every measure to be submitted to the people, together with a copy of the legislative committee's majority and minority reports, with the names of the majority and minority members and a fair, concise summary of the measure as such summary will appear on the ballot and, in such manner as may be provided by law, other arguments for and against the measure,—which proposed amendment was approved by the General Court and in a joint session of the two branches held July 8, 1941, received 201 votes in the affirmative and 2 in the negative, and in a joint session of the two branches held May 12, 1943, received 214 votes in the affirmative and 5 in the negative,

—be approved?

QUESTION NO. 2

PROPOSED AMENDMENT TO THE CONSTITUTION

Shall an amendment to the constitution to provide that the General Court may prescribe the terms and conditions under which pardons of offences which are felonies may be granted which is further described as follows:—

This article of amendment to the Constitution of Massachusetts annuls Article VIII of section 1 of chapter 11 of Part the Second of the Constitution, which vested the Governor, by and with the advice of the Council, with the full and unrestricted power of pardoning offences of which a person is convicted, except such as persons may be convicted of before the Senate by an impeachment of the House, and adopts a new Article VIII in place thereof.

This new Article VIII vests the pardoning power in the Governor, by and with the advice of the Council, but provides further that if the offence to be pardoned is a felony the Legislature shall have power to prescribe the terms and conditions upon which a pardon may be granted.

The new Article VIII contains the same provision as the old with relation to the ineffectiveness of pardons granted before a conviction,—which proposed amendment was approved by the General Court and in a joint session of the two branches held July 8, 1941, received 199 votes in the affirmative and 1 in the negative, and in a joint session of the two branches held May 12, 1943, received 198 votes in the affirmative and 0 in the negative,

—be approved?

QUESTION NO. 3

PROPOSED AMENDMENT TO THE CONSTITUTION

Shall an amendment to the constitution restoring Annual Sessions of the General Court and an Annual Budget which is further described as follows:

This amendment to the Constitution of Massachusetts annuls Article LXXII of the Amendments which provided for biennial sessions of the Legislature and a biennial budget, and makes effective those earlier provisions of the Constitution and its Amendments which were annulled or affected by said Article LXXII,—

which proposed amendment was approved by the General Court and in a joint session of the two branches held July 8, 1941, received 172 votes in the affirmative and 38 in the negative, and in joint session of the two branches held May 12, 1943, received 188 votes in the affirmative and 52 in the negative,

—be approved?

QUESTION NO. 4

PROPOSED AMENDMENT TO THE CONSTITUTION

Shall an amendment to the constitution providing for Absent Voting by Qualified Voters who by Reason of Physical Disability are unable to vote in Person which is further described as follows:—

This amendment to the Constitution of Massachusetts annuls Article XLV of the Amendments to the Constitution which related to absentee voting and adopts in its place a new Article XLV which authorizes the Legislature to provide for voting, in the choice of any officer to be elected or upon any question submitted at an election, by qualified voters of the Commonwealth who at the time of such an election are absent from the city of which they are inhabitants or are unable by reason of physical disability to cast their votes in person,—
which proposed amendment was approved by the General Court and in a joint session of the two branches held July 8, 1941, received 171 votes in the affirmative and 30 in the negative, and in a joint session of the two branches held May 27, 1943, received 184 votes in the affirmative and 61 in the negative,
—be approved?

QUESTION NO. 5

LAW SUBMITTED UPON REFERENDUM AFTER PASSAGE

Shall a law described as follows:—This law amends chapter 271 of the General Laws by striking out section 22A, as previously amended, and inserting in place thereof a new section 22A, which provides that conducting or promoting a game of whist or bridge in connection with which prizes are offered to be won by chance, or allowing such a game to be conducted or promoted, shall not authorize the prosecution, arrest or conviction of any person for such acts under chapter 271 of the General Laws, which deals with crimes against public policy, if the entire proceeds of the charges for admission to such game are donated solely to charitable, civic, educational, fraternal or religious purposes. This new section does not contain, as did the section now stricken out, provisions authorizing the licensing and conducting of the game of beano,—
which section was approved by both branches of the General Court by vote not recorded,
—be approved?

To obtain a full expression of opinion voters should vote on all three of the following questions:-

(a) If a voter desires to permit the sale in this city (or town) of any and all alcoholic beverages to be drunk on and off the premises where sold, he will vote "Yes" on all three questions.

(b) If he desires to permit the sale herein of wines and malt beverages only to be drunk on and off the premises where sold, he will vote "No" on question one, "Yes" on question two and "No" on question three.

(c) If he desires to permit the sale herein of all alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "No" on questions one and two and "Yes" on question three.

(d) If he desires to permit the sale herein of wines and malt beverages to be drunk on and off the premises where sold and in addition other alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "No" on question one and "Yes" on questions two and three.

(e) If he desires to prohibit the sale herein of any and all alcoholic beverages whether to be drunk on or off the premises where sold, he will vote "No" on all three questions.

1. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whisky, rum, gin, malt beverages, wines and all other alcoholic beverages)?

2. Shall licenses be granted in this city (or town) for the sale therein

of wines and malt beverages (wines and beer, ale and all other malt beverages)?

3. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages in packages, so called, not to be drunk on the premises?

The polls will be open at 6 a.m. until 8 p.m. in the evening

And you are hereby directed to serve this warrant by posting attested copies thereof seven days at least before the time of holding said meeting as directed by vote of the town.

Hereof fail not and make return of this warrant with your doings thereon to the Town Clerk of said Town on or before the 30th day of October in the year of our Lord nineteen hundred and forty four.

Given under our hands this 23rd day of October A.D., 1944.

REPORT OF ELECTRIC LIGHTING COMMITTEE

Weymouth, Massachusetts
 December 30, 1944

To the Honorable Board of Selectmen:

This committee has been able to do little but maintain the town's 1800 lights during the years 1942, 1943, and 1944.

The restrictions ordered by the War Production Board have been considerably eased and we hope to be able to start lighting the many newly accepted streets the coming year, provided the necessary materials can be obtained.

Most of the money returned to the town was due to credit for lights out following the September hurricane.

Respectively submitted,

Joseph Kelley, Chairman
 Alfred S. Tirrell
 Olindo Garofalo
 Walter R. Field
 J. Herbert Libbey, Clerk

REPORT OF THE ALEWIVE FISHERIES

1074 Pleasant Street
East Weymouth 89, Mass.
December 11, 1944

To the Honorable Board of Selectmen,
Weymouth, Mass.

Gentlemen:

I herewith submit my annual report as Superintendent of Alewife Fisheries for the year ending December 31, 1944.

Approximately (11,000) eleven thousand alewives were deposited in Whitmans Pond for spawning. The first catch was made on April 30th and the last on May 8, 1944.

Respectfully submitted,

Thomas. M. O'Toole
Superintendent of Alewife Fisheries

REPORT OF THE TREE WARDEN

January 2, 1945

To the Honorable Board of Selectmen
Weymouth, Massachusetts

Gentlemen:

I herewith submit the report of the Tree Department for 1944.

1. A systematic tree trimming was begun in 1944. Care was taken to trim out dangerous and dead wood along our main highways and routes which children use to the various schools.

2. The removal of dead and diseased elm, maple and poplar trees was a tremendous task. We succeeded in topping out and removing 103 trees. Many of our elms are fast reaching their life's end and along with Cephelosporium wilt which is a very severe disease and Verticillium wilt which affects both maple and elm trees makes this item an annual necessity.

3. A systematic tree planting program was begun in 1944. 175 Norway maples and some Linden trees were set out during the spring and fall. We have been through two hurricanes now which has taken many of our old trees and along with the number we are losing annually due to fungus diseases and natural causes this program must be carried on for many years to come.

4. There are well over a hundred tree stumps which have been topped and left standing for many years. Not only are these unsightly and in some cases in a dangerous condition but also the Scolytus beetle, carrier of the Dutch-elm disease thrives on this sort of wood. This work was practically not attempted in 1944, but in 1945, we hope to remove as many of these as possible.

The destruction from the hurricane of Sept. 15, 1944, although not as serious as in 1938, gave us a lot of added work for three weeks when most of the damage was cleaned up. Weymouth had 18 trees uprooted, 20 trees snapped off and between 30 and 50 trees left in a dangerous condition.

Many thanks to the Street Department for their aid in picking up the brush. Thanks also to William Keefe at the Town dump for the efficient way he handled the great amount of brush, stumps and logs which were hauled there.

Respectfully submitted,

William E. MacQuinn, Tree Warden

REPORT OF THE MOTH DEPARTMENT

January 2, 1945

To the Honorable Board of Selectmen
Weymouth, Massachusetts
Gentlemen:

Please accept the report of the Moth Department for 1944.

The Gypsy Moth although not too serious this year is becoming even closer to our town borders again, as the South Shore from the Cape northward to Hingham and Rockland was severely infested. Thus we look for real trouble in 1945. Every precaution was taken in our own Town this year both by spraying the trees and creosoting the egg clusters.

The Elm Leaf Beetle was kept in check by the usual spraying program.

There were a few light outbreaks of canker worms which were controlled by spraying.

The Tent Caterpillar an ever nuisance pest was controlled to a great extent by spraying and cutting wild cherries. Also the school children's efforts in collecting the egg cluster were a great help to the department.

There was a severe outbreak of the Satin moth in one section of North Weymouth but was quickly checked by spraying.

The sum of \$1,250.00 was appropriated for private spraying and the Town was reimbursed by the sum of \$1,263.00.

Respectfully submitted,
William E. MacQuinn, Moth Superintendent

DEPARTMENT OF VETERANS' AFFAIRS

East Weymouth, Mass.

December 30, 1944

To the Honorable Board of Selectmen:

I herewith submit to your Board the Annual Report for the newly titled Department of Veterans' Affairs, now established on a full time basis. The concern and forethought of the town in providing for Servicemen and Veterans of the present emergency is well emphasized by the fact that a decisive majority of cases handled by the department since May first of this year were those of W.W. II association. This majority was made up primarily by dependents of Servicemen, except for 45 Honorably Discharged Veterans who called on the department for aid or advice in one way or another. Incidentally, this figure represents slightly more than one third of the total discharges recorded through November, 1944.

As of Monday, May 22, 1944, the facilities of the department were made available daily without interruption. The association of a capable

assistant has proven to be a decided asset and has been the means of developing records and bringing them up to date in a creditable manner. This, with the additional office recently provided, establishes the department on a sound functioning basis.

All in all we are pleased with results to date, and we have just cause to feel that our efforts have been successful, but whatever our success we attribute that success to the support given by your Board and the beneficial guidance and counsel of the Rehabilitation and Advisory Committee. We are mindful, too, of the valuable services rendered by the Weymouth Red Cross and Weymouth Family Service Society, together with the fine cooperative spirit displayed by the Weymouth Selective Service Board and the various Town Departments who, when called upon, served us so willingly and in such an efficient manner.

Following is a brief resume of our activities:-

Total cases handled, relief and kind 421

Detail of Relief:-

Classification	Number	Amount	Refund	
World War II	47	\$ 4660.49	War Allow.	\$ 1345.75
World War I	21	6290.92	Military Aid	645.00

Above budget for 1945 includes an increase in salary for the Administrator and clerk, which we believe merits favorable consideration. An increase for Postage and supplies is also requested since no other provision is made for the expenses of the Town Rehabilitation and Advisory Committee. In 1944 postage, envelopes and paper for printing purposes provided for committee use cost approximately \$90.00. Also, in the figure of \$700.00 for supplies and printing, \$400.00 is included for the purchase of a desk and a Photostat Machine with initial photostat supplies.

The twelve months' estimate for Soldiers' Benefits is based on an average of the total expended for October, November, and December of 1944. (December estimated at \$1500.00)

Chief Timothy G. McCarthy
Fire Headquarters
East Weymouth
Massachusetts

Dear Sir:

I respectfully submit my report of the activities of the Fire Alarm System for the year ending December 31, 1944:

Alarms of Fire	180.
Second Alarms	2
Out of Town Calls	2
No School Signals	1
State Guard Call	1
False Alarms	13

The outside wire is in good condition, a part of which we try to replace each year.

One new Fire Alarm Box was added to the system at a new location.

There are still twenty-five old type boxes on the system that should be replaced as soon as possible. There are also a number of locations where new boxes should be installed in the near future.

In concluding I wish to extend my sincere thanks for the services and cooperation rendered during the year.

Respectfully submitted,

Edric J. Salisbury, Supt. of Fire Alarm

REPORT OF THE SHELL FISH CONSTABLE

December 31, 1944

To the Honorable Board of Selectmen
Gentlemen:

I respectfully submit my report as Shell Fish Constable for the year 1944.

In view that the Clam areas have been closed for Three (3) years no report of same is necessary. I would suggest the Board of Selectmen vote to reopen the area so Citizens can dig there again.

Respectfully submitted,

George L. Foster, Shell Fish Constable

REPORT OF THE COMMITTEE ON TUFTS LECTURE FUND

To the Honorable Board of Selectmen:

On October 7, 1940, the Board of Selectmen voted that the Superintendent of Schools, the Chairman of the Tufts Library Trustees, and one other be appointed to act on all requests for transfers from the Tufts Lecture Fund. On October 16, 1940, Mr. Sandy Roulston, Chairman of the Board of Selectmen, appointed Mrs. Florine E. Ducker as the third member of the committee.

This committee organized, and studied the entire problem, with the result that the following recommendations were made to the Board of Selectmen:

1. It is the unanimous opinion of the Committee that the practice of conducting Tufts Fund Lectures through the sponsorship of various organizations should be discontinued; and such discontinuance is hereby recommended.

2. The Committee is unanimous in the opinion that Tufts Fund Lectures should be provided each year for the benefit of the citizens, either by this Committee or by some other Committee; and this method of administering is hereby recommended.

3. Since the Tufts Fund reserve is limited, and since the annual income, on the basis of present investment returns, will probably not exceed \$125.00 a year, the Committee is of unanimous opinion that the new practice should be to arrange for two lectures per year, supplementing the annual income from the reserve as necessary; and such recommendation is hereby made.

On November 4, 1940, the Board of Selectmen accepted all recommendations and authorized the Committee to act under them.

At a subsequent meeting the Committee decided to delay temporarily arrangements for lectures until the Fund should have accumulated some reserve. Under normal conditions the lectures would have started in the fall of 1942. Gasoline rationing in May, 1942, and transportation difficulties generally which developed from that time caused the Committee to delay further the start of such a series of lectures.

It is the hope of the Committee that conditions in 1945 will be such that the program may be initiated.

The Committee will welcome receiving suggestions for lectures and programs from organized groups and individuals.

REPORT OF THE PARK COMMISSIONERS

To the Honorable Board of Selectmen
Gentlemen:

The following report for the year ending December 31, 1944 is submitted by the Park Commissioners.

As in former years, the routine work of the Park Dept. has been continued and thus the parks, greens and flower gardens have received their usual attention.

Again too, Mr. Ghiorse has had charge of the playgrounds and harmony and cooperation between youngsters and their teachers has been very satisfactory. We extended the season two weeks and found it beneficial to all. It was interesting to note that during the waste paper collection drive eight and onehalf tons were collected. This netted the sum of \$161.00 which was divided proportionately and used by the various playground teachers to provide special activities and refreshments for the children. Once again we recommend an eight week season for the

playgrounds.

As no funds were appropriated for the bath houses, we were obliged to keep them closed. As a result there was considerable damage done to the buildings during the summer. Next year we are in hopes of opening the bath houses for the convenience of our townspeople and trust that with the cooperation of the Police Department all unpleasantness will be avoided.

Respectfully submitted,

Everett J. McIntosh

REPORT OF THE PLANNING BOARD

January 10, 1945

To the Honorable Board of Selectmen
Weymouth, Massachusetts
Gentlemen:

The following is a report of the Planning Board for the calendar year 1944.

In the calendar year 1944 the Planning Board has held regular monthly meetings and some special meetings to consider extraordinary matters. Among the matters which have been considered by the Board are improvement of traffic conditions in various sections of the Town, the possibility of constructing a municipal incinerator to replace unsightly dumps, and the question of the installation of a sewerage system for the Town. On this latter measure the Board has cooperated with the Post-War Planning Committee and earnestly recommends to the Town that the necessary action be taken to install the sewerage system. The Board is sponsoring an article in the annual warrant looking toward the creation of an inspector of wiring for the Town. The Board feels that the Town should have such an official for the protection of the property of its citizens.

Very truly yours,

Francis A. Farr, Chairman

REPORT OF THE HONOR ROLL COMMITTEE

January 11, 1945

Honorable Board of Selectmen
Town of Weymouth
Town Hall, E. Weymouth, Mass.
Gentlemen:

The following is the report of the Honor Roll Committee.

At the last Town meeting authorization to build a temporary Honor Roll for Service Men and Women of World War II was given to a Committee which was to be appointed by the Town Moderator. The Committee appointed was: John W. Heffernan, chairman, Mrs. Beatrice W. Bicknell, clerk, Oberlin S. Clark, Roland H. Haviland and Prince H. Tirrell. Bids were secured, the contract awarded and the Honor Roll built. In the meantime the tremendous task of accumulating the names for the Honor Roll was undertaken. On November 11, 1944, The Honor Roll was formally dedicated. To date, approximately 2500 name plates have either been made or are in the process of being made. The State Census which is being taken with the annual Poll Tax Listing is going to be of great assistance to the committee in making the lists more accurate and more complete. Of course the work of this committee goes on day after day with new enlistments and new inductions and will continue to do so until the end of the war. A financial report of the com-

mittee will be found in the Town Accountant's report.

Respectfully submitted,

Beatrice W. Bicknell, Clerk

REPORT OF THE WAR PRICE AND RATIONING BOARD

Weymouth, Massachusetts

To the Honorable Board of Selectmen

The Weymouth War Price and Rationing Board appointed on December 29, 1941 by the Board of Selectmen on a directive issued by Governor Leverett Saltonstall has completed its third year of successful operation.

The year 1944 has seen many changes in the Board membership, chief of which was the retirement of Chairman George E. Lane and Everett Gardner. Both men were most faithful and gave unsparingly of their time and efforts. Upon their retirement, the Board was reorganized and on June 17, 1944, James F. Ferguson was appointed chairman by State Administrator Eldon C. Shoup.

The Regional Office in Boston had recommended that panels be set up covering each rationed commodity, together with Price Control, and in order to make this possible, additional members were appointed increasing the number of the Board from four to fifteen.

Shoes—4,717	4,607 stamps
Rubber Boots—90	76 certificates

Total of 77,431 applications processed.

Mr. Neal P. Benson, Chairman of the Price Control has submitted the following report:

"The major part of the field surveys and the mailing of material have been handled by Mrs. Pratt, Price Clerk. The cooperation of the entire Price Panel and the Price Clerk has been one of the pleasant features of our activities for this period.

Consumers and merchants have had 4,021 pieces of educational price material mailed to them, and 45 field surveys have been made. These surveys entail personal calls by Mrs. Pratt, paid clerks of the Board, Volunteers and, when possible, members of the Panel. The paid personnel of the office alone have devoted approximately 300 man hours in connection with this work

The retail outlets, personally contacted, are composed of 63 groceries and markets, 51 eating places, 28 textile and apparel stores, 137 service establishments, 25 fuel concerns, 50 consumer durable stores, and 10 drug stores.

Certificates of automobile transfers totaling 327 have been processed by the Panel since July 10th, the effective date of the used car price regulation.

The Price Panel has met every Wednesday evening during the year and has considered 108 price inquiries and consumers' complaints; it has also held 5 formal Hearings at these meetings.

The Panel feels that it has made very definite progress this year in getting the correct information on Price Control to the public and to the retailers and wishes to thank the merchants of Weymouth for their fine cooperation in the Price Control program.

We are proud of the fact that during the entire year all misunderstandings between the consumers and the merchants have been satisfactorily adjusted without recourse to any legal action."

Because of numerous burglaries in various Board offices throughout the state, the Regional Office in Boston devised a plan whereby all gasoline rations would be issued direct to the applicant from an area mailing center. On November 30th, this plan became effective in Weymouth. Our district office is located in Brockton. The system, although relieving the Board of the responsibility of handling thousands of coupons, has increased greatly, the work of the clerks.

As Board Chairman, I extend my thanks to:

The Board of Selectmen, for their cooperation.

Charles R. Thibadeau, Superintendent of Schools, Wallace Whittle, Principal of the High School, and the faculty and students who have cooperated and assisted us whenever the occasion arose.

The citizens of Weymouth for their patience, cooperation and tolerance.

Mary A. Curley and her staff of eight assistants, for their loyalty, efficiency, and cooperation in the ever increasing clerical work which they have so amicably performed.

The Board members for their faithfulness and loyalty.

Until such time as hostilities cease and complete victory is ours, the Weymouth War Price and Rationing Board is ready to serve the people of Weymouth to the best of its ability.

James F. Ferguson, Chairman

To the Honorable Board of Selectmen:

The Postwar Planning Committee herewith submits "Part I" of its report. The purpose of this portion is to make a brief reference to the work undertaken during the year. "Part II" will be submitted under separate cover and will include:

1. The sewage report which was made by the engineering firm of Metcalf & Eddy and which includes all essential changes necessary to bring the comprehensive survey of 1929 up to date.

2. A list and brief description of the work projects assembled through the cooperation of various town departments.

3. Reports of the subcommittees appointed to study special problems.

Sewage This Committee is of the unanimous opinion that a sewage disposal system for the town is of the utmost importance and that the construction of such a system should start as soon as possible. All the necessary steps preparatory to the passage of an Enabling Act have been taken. An extended study of the sewage disposal needs of the various sections of the town has been made. Plans have been completed for the beginning work. Several conferences have been held with a representative of the engineering firm, and the 1929 report has been completely revised.

The Committee recommends that two articles be included in the Town Warrant:

1. To see what action the Town will take regarding the referendum on the Sewage Enabling Act or take any other action relative thereto.

2. To see if the Town will appoint a committee of three to continue the work of the Postwar Planning Committee, if needed, assemble facts and figures pertaining to the "Sewage Act," and be prepared to report at a special or regular town meeting, said committee to be known as a Sewage Committee.

Public Works In accordance with the request from the Governor's Emergency Public Works Commission, the Committee has continued its study of proposed community betterment projects. Many of these have been estimated as to costs and kinds and amounts of material. Others need varying amounts of engineering service none of which has been provided outside of that obtainable from the personnel of some departments. During the next year certain projects from the list reported should be completely written up in accordance with prepared plans and made ready for immediate use if occasion demands.

Other Areas of Study Four areas were studied during the year in addition to the intensive work done on "sewage." These studies were made under the direction of subcommittees and consist of:

1. Youth Planning—Chairman, Everett J. McIntosh

2. Transportation—Chairman, Frank Ness

3. Opportunities for Private Employment in the Postwar Period—Chairman, Francis A. Farr

4. Better Articulation between the Functions of the Board of Survey and the Planning Board—Chairman, Harry Christensen

Much of the work of these subcommittees is of a continuing nature, and the reports at this time (under separate cover) are reports of progress.

In Conclusion It is recommended that there be inserted in the Annual Town Warrant an article:

To see what action the town will take relative to continuing the Postwar Planning Committee or like committee and to see what sum of money will be raised for such purpose.

The Committee wishes to thank the members of the Board of Selectmen for their cooperation and extend its appreciation to all others who have assisted in any way.

The Library and the Branches are not open Sundays, legal holidays,
nor the 17th of June.

The Library is for the use of all residents of Weymouth. Temporary
residents are entitled to the same privileges as permanent residents.

* On leave of absence in the armed service.

Each card issued to an adult entitles the holder to one book of recent fiction (a book published within the last year), one current periodical, and any reasonable number of other books.

Children under Senior High School age are entitled to a card if the application is signed by a parent or guardian. Cards issued to children entitle the holders to two books, only one of which may be fiction.

All books from the circulating department, except the new fiction, may be kept for 14 days. At the request of the borrower any book not in demand will be charged for one month, subject to recall after two weeks if requested by other borrowers. Fiction published within the last twelve months, and recent numbers of magazines are limited to seven days with no renewal privilege.

The vacation privilege allows a borrower to take books which are not recent publications for an extended time.

A book cannot be transferred from one card to another, but any 14-day book may be renewed at the library, by mail or by telephone (*), unless another borrower has asked to have the book reserved. The date due, the author and title of the book, and the borrower's number should be stated when the request for renewal is made.

Any book will be reserved at the request of a borrower, who will be notified as soon as the book is available. A charge of one cent is made for this service.

A fine of two cents a day will be incurred for each day's detention of a book after it is due. When a book is sent for by the librarian, it will be at the expense of the borrower.

For the convenience of residents living in different parts of the town, books are exchanged through the stations as follows:

SIXTY-SIXTH ANNUAL REPORT OF THE TUFTS LIBRARY WEYMOUTH, MASSACHUSETTS, 1944

ARE BOOKS ESSENTIAL?

America is at war. Weymouth is at war. More than two thousand of our boys and girls are scattered over the world, fighting for us. Do books matter in such a world? Has the Tufts Library been essential to Weymouth in 1944?

"BOOKS ARE SAVING PRICELESS MAN HOURS BY MAKING AVAILABLE TO ALL WHO CAN READ, ALL THE SKILLS OF ALL THE CRAFTS SO VITAL TO VICTORY."

The Tufts Library has loaned 2,308 such books in 1944.

"BOOKS ARE EXPLAINING TO A BEWILDERED NATION WHY WE FIGHT—HOW, AND WHERE, AND WHOM WE FIGHT."

The Tufts Library has loaned 3,254 such books in 1944.

"BOOKS HELP US TO UNDERSTAND OUR COUNTRY, OUR WORLD, THE HISTORY, THE GEOGRAPHY, THE PEOPLE, THEIR CUSTOMS, THEIR AMBITIONS."

"BOOKS REVEAL OUR FRIENDS, UNMASK OUR ENEMIES."

The Tufts Library has loaned 5,067 such books in 1944.

"BOOKS TAKE US WHERE OUR MEN ARE FIGHTING AND MAKE THEM BETTER FIGHTING MEN."

The Tufts Library has loaned 2,098 such books in 1944.

"BOOKS GIVE US ALL THAT MANKIND HAS DONE AND DREAMED AND PLANNED.

"TODAY MILLIONS ARE DERIVING HELP, INSPIRATION, COURAGE AND DIVERSION—FROM BOOKS."

The Tufts Library has loaned 163,692 books in 1944.

*"ARE BOOKS ESSENTIAL? TRY TO IMAGINE A DEMOCRACY AT WAR—WITHOUT BOOKS."

Weymouth residents have used their library in 1944.

1,261 new borrowers registered for cards.

More than 8,500 people read an average of nineteen books apiece.

Although more than two thousand young people are away in the armed services and the people at home are caught up into varied and urgent war activities, 5,857 more library books were read in 1944 than in 1943.

THE TUFTS LIBRARY IS GROWING.

It is growing through out-lying stations, until now its extension work is equivalent to the work of a branch library. It is reaching more people in more parts of the town.

It is growing in the Main Library and the North and East Weymouth Branches in its reference services.

It is growing through class room collections in the schools and through directed reading and story hours in the Children's Room.

The book collection has grown until the shelves are overcrowded and a post-war plan for expansion into the attic is an urgent necessity. When that expansion is accomplished the Tufts Library can enlarge its services to the people of Weymouth. It will not only have room for its books; it will have a gathering place for civic and educational groups; it will be equipped for a more constructive service to the community.

MAINTENANCE

The entrance hall of the Main Library and the walls of the East Weymouth Branch were freshly painted in 1944. A little additional shelving at each of the branches and the refinishing of tables and desks have made both branches more attractive. A new section has been added to the card catalog at the Main Library.

PERSONNEL

Four resignations during the year have handicapped the work of the library. Miss Charlotte MacLeod resigned from the staff of the Main Library and three part-time High School girls, who were employed as helpers in the branches.

Miss Harriette L. Sewell was hired to succeed Miss MacLeod and has divided her time between the Main Library and the North Weymouth Branch. Mrs. Ruth Loeffler Schill, who has been on leave of absence for service in the WAVES, returned to the library November first.

Five staff members have taken professional courses of college grade during 1944.

LIBRARY HOURS

One change has been made during the year in the schedule of library hours. In response to popular demand the East Weymouth Branch is being opened this winter on Wednesdays instead of Saturdays. If this proves

to give the public more satisfactory service it will be continued.

Library hours for all departments are given under the heading INFORMATION on an introductory page of this report.

GIFTS

The trustees wish to take this opportunity to express their thanks for gifts of books and loans of exhibits to the library. These are listed at the close of this report.

They also appreciate gifts of flowers in their season. Flowers are enjoyed by both the staff and the borrowers.

STATISTICS

Full statistics for 1944 are listed in the appendices of this report.

WAR WORK

The Tufts Library has cooperated during 1944 with the Red Cross and Community Chest Drives. It took an active part in the Bond Selling Campaign of the Sixth War Loan. It has served as a recruiting station for both the WAACS and the WAVES. Two staff members are serving as nurses' aides and one has given volunteer help in the library at the Air Base. The librarian gave instruction in hospital library operation to the Gray Ladies organized under the Red Cross. A servicemen's scrap book is maintained at the Main Library and grows in interest and value.

The Tufts Library stands ready to cooperate in Weymouth's community effort in 1945.

THE NAZIS BURNED BOOKS. WHY?

In Stephen Vincent Benet's poem a Nazi speaks:

" . . . We can destroy
Houses with bombs and people with starvation
Outflank defensive lines and tramp ahead.
We can destroy the spirit of a nation
With poison doubts and fears
Erase its history, blot out its past.
. . . But while there is a single man alive
Hidden or starving, who somehow remembers
. . . The undying words
That spake for man's free mind,
Though they were said a thousand years ago,
Our conquest is not perfect.

That's why we burn the books,
That's why we burn all knowledge, all the recollected thought
Gathered in patience through three thousand years of
civilization."

Today we fight for what the Nazis would destroy. They burned the books. We can use them, as tools, to help us build a new life, a better civilization.

*"WHATEVER MAN HAS ACCOMPLISHED OR HOPES TO ACCOMPLISH IS YOURS—IN BOOKS."

BOOKS ARE ESSENTIAL.

Clarence P. Whittle, President
By order and on behalf of
the Board of Trustees of the
Tufts Library.

ANNUAL REPORT
OF THE
WATER DEPARTMENT

WEYMOUTH, MASSACHUSETTS

WATSON DEPARTMENT

THE UNIVERSITY OF CHICAGO

REPORT OF THE SUPERINTENDENT

To the Weymouth Board of Water Commisioners:

During the past year the Water Department has continued the program of reinforcing mains as recommended by the New England Fire Insurance Rating Association. The War Production Board approved construction on Pleasant, Washington, Commercial, and East Streets.

The gravel walled well and pumping station have been completed at Circuit Ave., except for final adjustments of chemical feed and pump.

The North Weymouth Standpipe has been equipped with the Electro Rust-Proofing system for protection against corrosion.

A survey for leaks in the distribution system was started the past season, and should continue during the coming year.

Mr. Loud, our chemist and bacteriologist, was commissioned in the Army early in the year. The engineering firm of Weston and Sampson was retained to make the necessary laboratory tests of our treatment plant.

Mr. Meyers, who has been with the Department for 34 years, retired in October.

The program of reinforcement of mains and the construction of a new standpipe should proceed in 1945 as recommended by the report of our engineers, Weston and Sampson.

Your Superintendent wishes to express his appreciation for the cooperation of the Board of Water Commissioners, as well as the Fire, Police, Street, and other Departments of the Town.

The following tabulations will summarize some of the activities of the Department during 1944.

Respectfully submitted,

Sydney C. Beane, Superintendent

Temporary Treasurer of the Water Dept.

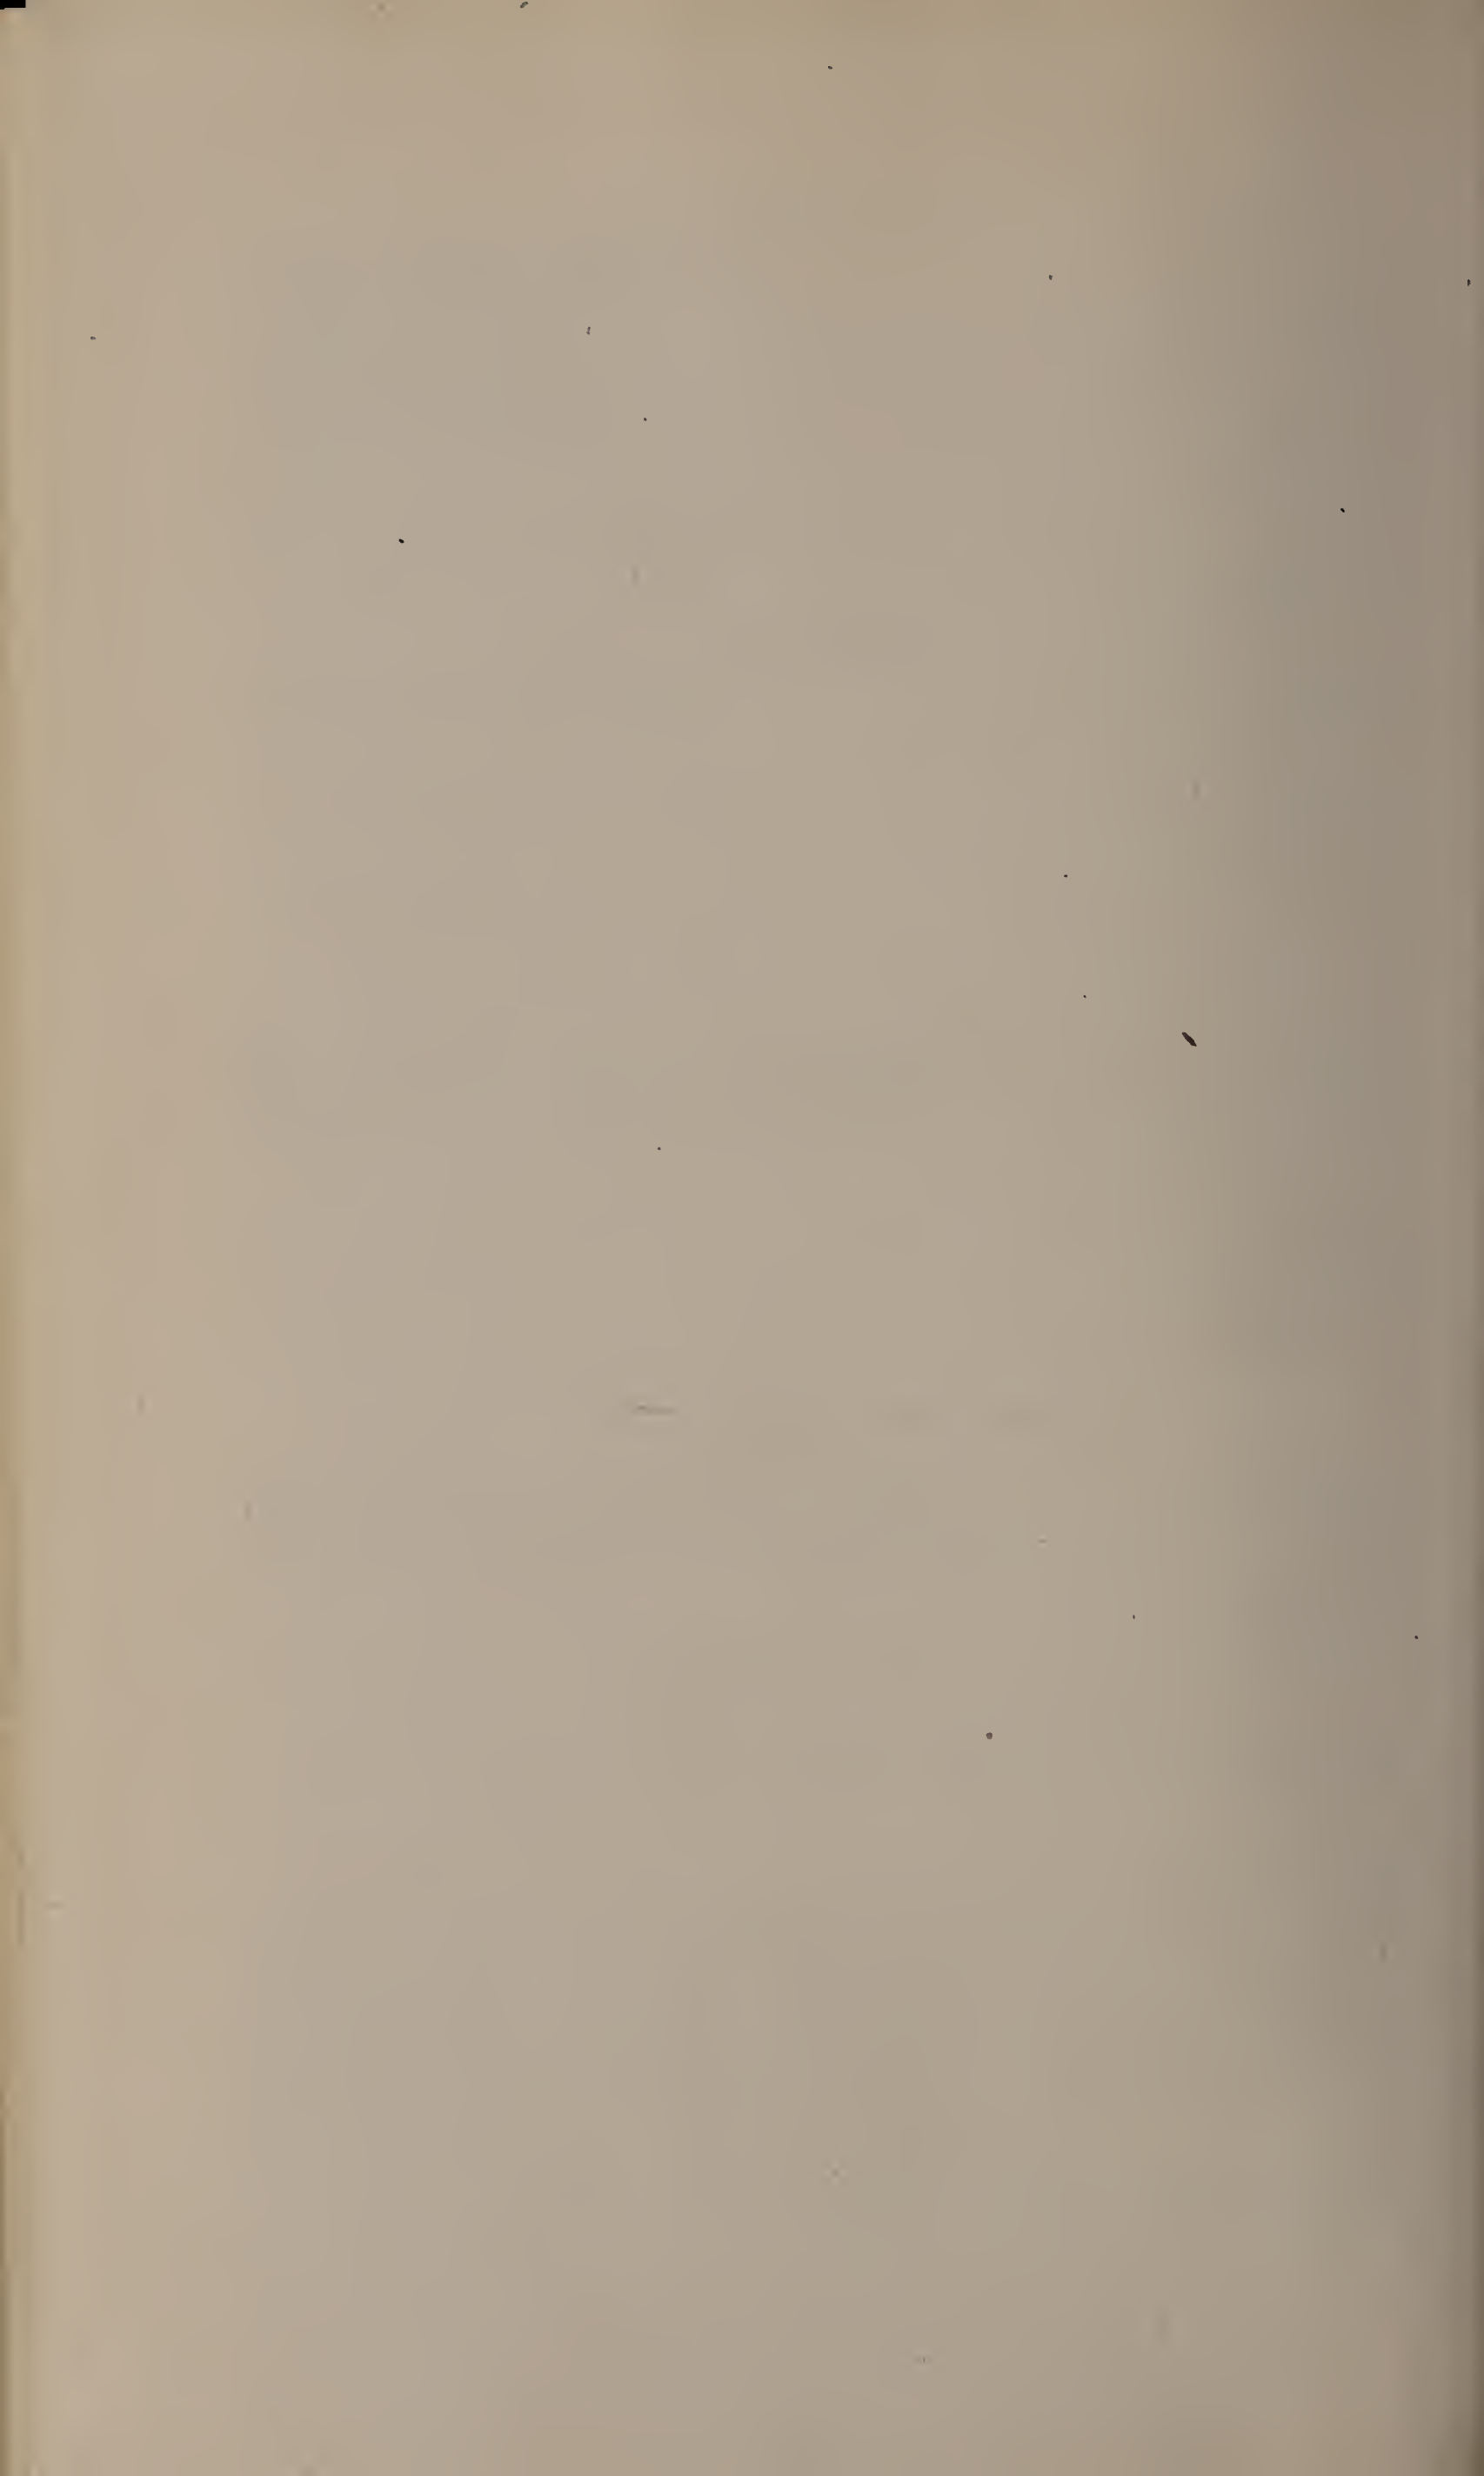

Weymouth, Mass.
January 24, 1945

I have examined the accounts of the Treasurer's Department and the Collector's Department of the Weymouth Water Department and find them correct during the period when George E. Curtin was serving as Treasurer as well as during the period when Ethel B. Ryan was serving as Temporary Treasurer. The examination has been frequent and constant. Complete reconciliation of the accounts was made at least once a month during the year.

Respectfully submitted,

GENERAL ANNOUNCEMENTS

Meetings of the Committee

Regular meetings of the School Committee are held on the first
Tuesday of each month at the High School Building at 8:30 p.m.

Entrance Age

No child shall be admitted to school in September unless he has
reached the age of five years on or before the first day of April preceding.

A birth certificate is required for entrance to the first grade. Children
entering for the first time will be admitted only during the first two
weeks of school.

Vaccination

No child shall be allowed to enter the first grade without a certificate of successful vaccination.

Employment Certificates

Employment certificates, educational certificates, and newsboys' badges are issued at the office of the Superintendent of Schools in the High School Building from 9 a.m. to 10 a.m. every week day, except Saturday.

All persons must make personal application and present a birth certificate.

"NO SCHOOL" SIGNAL

Adopted September 1, 1944

All "No School" signals are sounded on fire alarm box 222 (three rounds), and are interpreted according to the following schedule:

7:15 a.m.	No school all day	All schools
7:30 a.m.	No morning session	Grades I through VIII
7:45 a.m.	No morning session	Grades I through IV
11:45 a.m.	No afternoon session	Grades I through VIII
12:00 noon	No afternoon session	Grades I through IV

In addition to the fire alarm signal, announcement will be made over Radio Station WEEI whenever possible.

REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Weymouth:

The School Committee submits its report for 1944, together with the Annual Report of the Superintendent, Mr. Charles R. Thibadeau.

We have passed through our third full year of World War II, and our Weymouth School System has naturally been affected by it. Twenty-one members of our Department have been granted a leave of absence to join the armed forces. We have been fortunate in having many of these vacancies filled by married women who formerly were teachers. Their experience has been a real asset in these difficult years. Of the twenty-one members who have been actively engaged in the country's war effort, four have returned and have resumed their places in our school system.

It has been the desire of the School Department to develop a plan in regard to the early dismissal of pupils from the high school to enter the armed forces that would be fair to every one, but which would not lower our standards. Our policy on this important matter is as follows:

1. Any senior who leaves school to enter military service after February 1, and who has completed his work for the balance of the year and received satisfactory grades, will be granted a diploma.
2. Any senior who has earned his junior year credits, and who leaves before earning a high school diploma, should forward to the high school certified copies of all credits received for courses taken while in military service so that they may be evaluated and credited towards the high school diploma.

The School Committee realizes that several problems in our Department are not being solved as quickly as many Weymouth citizens would like. Transportation of our pupils to and from school is among these problems. This has been given a great deal of study, and we hope that a solution will be found. The company which now transports our students is beset with manpower shortages and the inability to replace equipment. Because of the war an immediate remedy does not appear to be in sight. It is our intention to make every effort to improve our transportation facilities.

We believe that Weymouth has a good school system, but we know that it can be improved. This improvement is our goal as we feel that education is more important for the future of our nation now than ever before. Changes in educational methods and basic changes in our system are sure to develop after the war. We intend to be prepared for them if possible.

The last three years have been particularly difficult ones in which to run a school system efficiently. We have attempted to keep our standards up in every respect. As our personnel left to take their places in the war effort, we have "plugged the gaps" with capable substitutes. We think that our system has suffered very little, and we trust that we can keep it on its present high level.

The following figures show the School Department expenditures for 1944 and the estimates for 1945:

	Expenditures 1944	Estimates 1945
Administration	\$ 14,461.62	\$ 18,261.25
Teachers' Salaries	377,043.35	400,639.32

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Committee:

As Superintendent of the public schools of Weymouth, I respectfully submit my fifth annual report, the fifty-ninth report in such a series.

For the past three years it has been necessary, because of the difficulties encountered in the purchase of printing service, to condense the annual reports of the town departments. This year the need of further condensation is stressed by the Board of Selectmen because of costs and inability to obtain long reports from the printer in time for distribution. In its effort to cooperate, the School Department has omitted from its report such materials as would seem to be less important because of their preservation in other documents and files.

Schools in Peace - We must not for one moment lose sight of the contribution that the schools have made in the war effort, and we must not diminish that contribution nor fail to make, within the limits of our abilities, further contributions as needs arise until the war is won. Our total responsibility, however, will not be discharged unless at the same time we plan for the "Schools in Peace." The problems of peace will avalanche upon us with such rapidity and from so many directions at the same time that the effective meeting of them will make necessary the development of workable plans in as many areas as can be anticipated.

The implications in this challenge are legion. The schools of tomorrow will not be the schools of yesterday, nor, for that matter, the schools of today. The needs and demands of society in the postwar world will differ from those of the prewar period. In the field of secondary education there must be more intensive planning and working out of possible solutions for meeting the educational needs of our boys and girls. The meeting of these needs may well require that we improve our secondary education by extension and through adaptations. There is also room for improvement at the elementary level through new emphases and additions directed to the achievement of new objectives consistent with the requirements of a changing society.

We have had sufficient experience during the depression decade of 1930 to 1940 to convince us that, if the local and state structure of education is not sufficiently flexible and adaptable to meet the needs of our boys and girls in a new and changing world, the federal government itself is likely to operate parallel and competitive educational services for youth.

This concept of operating within the framework of local and state educational systems does not exclude the desirability—even the necessity—of federal participation in public school support. It does, however, emphasize the desirability of federal participation in public school support within the structure of the established channels; that is, the federal government making its allotment to the Federal Office of Education; the Federal Office of Education, to the state departments of education; the state departments of education, to the local communities, through formulas that are determined objectively.

Local control of education has from the beginning of our national history been a part of the cherished concept of our system of free public schools. It should continue to be held as a fundamental in democratic ideology, even though the services of the schools are extended in meeting the needs of the people they serve to a point which requires additional aid and support from the state and federal levels of government.

The schools should revitalize the curriculums so as to provide for the necessary experiences to meet the realities of democratic living in a complex modern society—a society which will have to be more and more concerned with its proper function within the broadening concept of international organization. As society changes, so must education change. We cannot hope to produce a competent generation of youth “trained in historical rather than modern ways of life.” There must be a positive program of education, with all the implications of modifications, adaptations, and extensions to meet the needs of a changed economy. There must also be a positive program to “wage” a peace and improve racial understandings and respect for religious differences.

What Our Schools Are Doing - Our schools are making a start by considering the needs implied and stated in the preceding discussion. At the opening of school in September, our entire teaching staff recognized and discussed the need for a positive program of education. Every teacher is engaged in the preliminary work essential to the evaluation of our school system to the end that adaptations and modifications can be made and extensions recommended. They are also developing methods and techniques for improving racial understandings and respect for religious differences. The teachers are vitally aware of the part the schools must play in meeting the needs of youth and what should be the relationship of the local, state, and national levels of government in that task. At one and the same time they are giving serious attention to the evolving global concept and the implications for education therein.

Our schools in the past have been good schools. Our schools in the present are good schools. Our efforts in the areas described above are directed toward keeping our schools good in the period ahead. That can be done best by planning now for the changes which are inevitable and which can be reasonably anticipated. Knowing where we are is essential to the setting of a course to where we are going. This our teachers are endeavoring to do while they are carrying on with the business of meeting the problems of the day.

Trends - There are definite trends which will extend the scope and structure of our public school organization; for example:

1. The period of compulsory education extended to 18 years of age, or high school graduation, whichever occurs first;
2. Extending the public school system by providing opportunity to prepare for occupations requiring limited training beyond the secondary school;
3. Providing curriculums to meet the needs of all youth, the needs of adults, and the needs of returning servicemen;
4. Providing an adequate guidance program with all that the term implies.

Supervisor of Attendance - Such a position has been created in the public school system. During the past few years there has been a distinct tendency away from legalistic enforcement of school attendance. All state attendance laws provide exemptions. Under the old concept, any child legally excused ceased to be a problem for the attendance officers. Under the new concept, such a child becomes at once the personal responsibility of the Supervisor of Attendance, on the grounds that he needs the friendship and guidance of one who understands and knows how to deal with youth. The modern attendance worker knows that there is a reason for bad attendance. He has learned that there may be a series of reasons, and he attacks the problem by trying to discover why individuals have been nonattenders and helps to remove such hindrances.

Transportation - This is one area of service which is extremely unsatisfactory. There are many factors contributing to this condition; such as, shortage of rolling stock, manpower deficiencies, press caused by increased need of warworker transportation, and regulations of the Federal Office of Defense Transportation and Office of Price Administration. The School Committee and the Superintendent of Schools have tried in every practical way to improve this service, even to the extent of attempting to interest other transportation companies to take over the work. The solution is difficult and the results are still unsatisfactory.

Music - The entire program shows promise of excellent achievement. Enrollments in instrumental classes in the elementary schools indicate that a successful program in this area will be continued in the High School. In all the work the interest of the pupils, teachers, principals, and music supervisors is high. From such a beginning, successful results may be expected.

Agriculture - This department places considerable emphasis on the laboratory method; that is, the best training is conceded to come from actual practice in agricultural situations, which means that for certain parts of the year our pupils are actually working on farms, dairies, etc. Formerly the academic work for these students has been provided in the regular academic classrooms, which, due to program difficulties, resulted in there being only a few agricultural pupils in each of several class divisions. Prolonged and frequent absence from classroom situations has resulted, because of structure, in academic loss to the pupils. To correct this situation, the School Department has assigned an academic teacher to supplement the agricultural staff in that department. Experience during the past four months has indicated this to be a desirable adjustment.

"No School" Signal - Beginning in September the new policy governing "No School" signals was adopted. It was also decided not to resort to excessive closing of schools for bad weather. The law states that municipalities shall operate high schools for a minimum of 180 days each school year. School calendars are prepared with this requirement in mind, but with the generally established vacation periods and holidays there are usually not more than 184 school days between the Wednesday following Labor Day and the third week of June. A free use of the "No School" signal for bad weather may result in an extension of the school year through the fourth week of June.

Budget - The estimates for the 1945 financial needs of the School Department include amounts for extended service only as indicated. The amount of each major division in the budget is determined by combining the costs of the items included under that heading. Each item so included is within the framework of accepted policies and practices of the School Department. The needs for the fiscal year beginning January 1 are as noted in the report of the School Committee. The differences in the amounts of the various divisions as compared with previous budgets are the result of the general increase in salaries of \$200.00 on April 1, 1944,

regular salary increments, and increases in costs of replacement, repairs, supplies, and materials. In this budget there are included additional amounts for the following purposes:

1. A Supervisor of Attendance
2. The extension of the new penmanship program to Grade VI
3. An amount sufficient to pay retirement assessments of teachers in military service, as required by law
4. Extension of health service
5. Estimate for the salary differences between substitutes and the salaries of teachers who may return from military service

Edward B. Nevin School Subsurface Filter Bed - A letter received from the Board of Health called attention to the fact that the sewage from the Edward B. Nevin School was contributing to the contamination of Whitman's Pond and urged that the situation be corrected. The School Committee took corrective steps resulting in the construction of a subsurface sand filter bed.

Promotion of Health - For the past three years the School Department has been concerned with the problem of extending the health service in the schools, because the health of the pupils is an obligation of the schools and wartime strains and stresses intensify the need of such service. The plan which has been adopted is modest in its inclusion and as essential to postwar needs as to those of the present emergency. Such a program is the minimum which the public schools of Weymouth should provide. Briefly, the plan provides for:

1. Annual examinations to be completed in September for all pupils in grades I, III, V, VII, IX, XI, and the Special Classes,—such examinations to include heart, lungs, nose, throat, feet; and hernia, for boys
2. Annual examinations of eyes and ears (with the most modern equipment), supplemented by the examinations of the school dental hygienist
3. Continuation of the several clinics which have been conducted through the cooperation of the Board of Health
4. A more intensive program in correction, prevention, and follow-up; for example, pupils discovered by examination as needing corrective treatment to be visited in their homes for the purpose of explaining the needed treatment, daily inspections to be made in rooms where contagion exists, careful and complete records on health cards, and continued re-examination and check, as necessary
5. Increased nursing service

Additional Classrooms - Two additional classrooms were opened during the year. To provide for increased enrollment in September at the Edward B. Nevin School, a large double room in the new wing originally designed for domestic science was divided into two classrooms by the construction of a partition. Increased enrollment in North Weymouth created the need for a new first grade room at the Athens School and for making rather extensive changes in the lines of the Bicknell and Athens districts.

A reassignment of pupils between the James Humphrey and Jefferson Schools resulted in the closing of one classroom at the James Humphrey and a transfer of teachers.

Gifts - The Superintendent is pleased to report that an enlarged photograph of the late Mr. Parker Tufts Pearson, former Superintendent of Schools, presented to the School Department by the Weymouth Teachers' Association, has been placed in the corridor of the High School Building oppo-

site the entrance to the School Committee rooms.

The photograph of the three High School principals who served the town from the date of the erection of the present building until August, 1937, has been framed and placed in the Principal's office. This gift was made to the High School by Mr. Clarence L. Pratt.

Two beautiful oil paintings presented by Mr. Leon Brooks in memory of his wife are hanging in a permanent and specially illuminated space near the entrance to the auditorium.

The complete aeroplane given to the School Department by the federal government in October, 1943, continues to hold the interest of our pupils taking aviation courses as well as to provide live instructional material. It is interesting to note that some of our former pupils with enviable records in the air forces of the United States go to the aeronautics room, climb into the cockpit, and feel the controls of the old training plane.

Recommendations - The Committee to Study the Needs of Vocational Education, which has not functioned for the past two years because of the emergency conditions, should be continued. There may be much for them to do during the year.

The housing needs of the department should be continued as a "must" for study. The congestion at the John Adams School could be considered in conjunction with a long-term plan for the entire East Weymouth area. The advantages and disadvantages of continuing in use small buildings which provide nothing more than classroom space should also be considered in relation to long-term planning. The probable High School needs should be considered with the space requirements to be determined by the committee studying vocational educational needs.

Conclusion - I am deeply grateful to you, the members of the School Committee for your excellent cooperation and valuable assistance. I am appreciative of the untiring efforts of the entire department personnel and the support of all others in such progress as the schools may have made.

Respectfully submitted,

Charles R. Thibadeau, Supt. of Schools

COURSES OF STUDY

Report of Flora Haviland McGrath
Director of Courses of Study

At the close of this school year, it is possible to note a positive and satisfying growth in the building of one of the most effective and complete cumulative pupil data records ever achieved in our school history. I consider this one of the most hopeful developments in the field of better pupil understanding. This has been arrived at in part through the various testing programs carried on in the past few years. Group testing now being used to determine mental ability and general academic achievement serves as an excellent, though not always infallible, guide in understanding both the difficulties and the potentialities of pupils. This procedure is not to be accepted as the only criterion, however, but as something which is supplemental to teacher judgment and other criteria.

GROUP TESTING

Grades I, III, and V, and all new pupils are given mental ability tests in order to assist in determining the extent of the child's mental capacity. It is always the aim of the school to help the child to achieve up to the limits of his capacity. In some cases, however, it is not always possible

because of obstacles peculiar to the individual. These tests are proving invaluable in determining the individual child's potentialities as compared with his group. They are by no means all-conclusive, but they are distinctly helpful.

ACHIEVEMENT TESTING

Tests in general achievement in fundamentals—reading, vocabulary, language usage, arithmetic reasoning, arithmetic computation, and spelling have been given in grades V, VII, VIII, and wherever there was no achievement record on new pupils.

A few observations on some of these testing results are given herewith:

1. In the language usage test in grade VIII, 80 per cent of the classes tested had class medians above the test norms.
2. In arithmetic reasoning in grade VIII, 70 per cent of the classes had medians at or above test norms.
3. In language usage in grade V, no class had a median below the fifth grade level.
4. In arithmetic computation twelve out of thirteen classes had medians consistent with the grade.

The results in each subject tested were compared with other schools within the system as well as with the standard norms. Wherever any notable discrepancy existed between the local and standard norms, a study was made to determine reasons for differences in order that necessary remedial measures might be taken.

GENERAL SUPERVISION

Constant stimulation in some areas is required to guide teaching into the more dynamic activity program and away from the traditional patterns of teaching often adhered to through inertia. Wherever well-planned activity programs have been carried out, there have been better understandings and more lasting outcomes. A few of the most outstanding programs are briefly noted here with the hope that greater effort in this direction may become a practice.

Pre-flight Aeronautics

In this elementary course arranged on a junior high school level, an excellent unit on meteorology was carried out. Cloud formations, temperature, air pressure, humidity, precipitation, and winds were studied, and weather charts, meteorology notebooks, collections of pictures, individual observations and reports made as part of the unit. English, art, geography, and arithmetic were correlated in the various phases of this unit.

English

Two unusual units were noted in English, one correlating with art appreciation and the other with literature. The units were carried on over a period of six or eight weeks with assuredly more satisfactory results than would have been achieved through the traditional pattern.

COURSES OF STUDY

Our courses of study are always more or less fluent and thus in a process of revision and growth. While some revisions have been made in the existing courses, no new ones have been added.

IN CONCLUSION

To the teachers and principals, to the members of the school committee, and to Mr. Thibadeau, Superintendent of Schools, I wish to express my continued appreciation for all their efforts in those directions which make for constant improvement in our school system.

HIGH SCHOOL

Report of Mr. Wallace L. Whittle, Principal

Continuing with our practice of the last three years, we are constantly striving to offer to the students material which is chosen to meet their various requirements, and at the same time be of value to the war effort. A change of emphasis in the different fields of study gives practical knowledge and training for use both in the armed forces and on the home front. The various branches of the government are constantly urging more and more pre-induction training for the boys who are going into the service. We are trying to comply with all such requests by offering such courses as we have the facilities to teach.

There were enough boys in the senior college course who wished to study aeronautics to allow us to schedule a more highly technical course than the one which we offer to the general and business groups. This addition to the program is an example of the manner in which we attempt to meet pre-induction needs.

Courses have been arranged so that it is now possible for all seniors who become eighteen years of age before the end of the school year to complete the required work before leaving, and thus be eligible for a diploma. It is our hope that all boys will take advantage of this opportunity. However, if this is not done, there are numerous opportunities for boys to complete courses while in military service and earn credit toward their diplomas. It is now possible for all senior pupils who left high school to enter the armed forces to earn up to one year's credit outside of school. Many boys are working on such a program now.

The State Department of Education is working out a program to award a certificate equivalent to a high school diploma to any qualified young people who are not eligible for high school diplomas under existing regulations.

We intend to offer a pre-induction course in automobile mechanics to senior boys in the spring. This course was given last year for the purpose of giving some mechanical training to the boys before entering the armed forces.

We have given for the second year an orientation course to all freshmen. This course will probably become a permanent part of our curriculum as it seems to have shown its usefulness. We shall give a course in driver education to as many as we can accommodate, and we hope to be able to repeat the army orientation course for all senior and seventeen-year-old boys.

The students have published a news letter, "Weymouth Highlights," which is made available to be sent to any boy or girl in the service of our country. Several issues have been extremely well received and enjoyed by our former students with the requests that the news letter be continued. One issue has already been published this year and others will follow. We feel that this is a definite contribution to the morale of our boys.

I should like to call the attention of all parents to the fact that the election of subjects to be studied by the pupils is of utmost importance. Although the situation has been somewhat improved, there are still far too many pupils entering high school with not enough thought given to the chosen course of study. It is not practical to make changes in the program after the year has started. Such changes are almost always detrimental to the student and can be avoided by careful selection of subjects at the proper time. I cannot emphasize enough the importance of a wise and careful choice at the start of the pupil's high school career. We are happy at all times to explain the various courses or to be of help in any way. We welcome conferences with parents in order to save as many pupils as we can from an improper course of study. Our Guidance Department has done excellent work in this field and its services are available at all

times to high school and grammar school pupils and their parents.

Our war stamp sale has continued as in the past, the total sales for 1944 being \$17,452.95.

The Junior Red Cross and the Art Department have done a tremendous amount of work for the boys in the service, and they have also made many useful articles for the returned veterans at the Cushing General Hospital in Framingham and the Lovell Hospital, Fort Devens, in Ayer, Massachusetts.

The awards given in June are as follows:

Weymouth Teachers' Association—Marie Haviland, Audrey Horsch, Ruth Lovell, Doris O'Neill

Weymouth High School Alumni Association—Ruth Burgess, Mary Pottle, Taylor Steeves

Alice W. Dwyer Scholarship—Anita Clark

Federick W. Hilton Award—Harold Leach

The Monday Club of Weymouth—Ruth Johnson, Jean Reidy

Sons of Italy and Daughters of Italy—Robert Huntoon

The Weymouth Catholic Club—Thomas Pickett

Weymouth Post No. 79, American Legion—Taylor Steeves

The Washington and Franklin Medal for proficiency in American History was given to Taylor Steeves.

The Daughters of the American Revolution Good Citizenship Award was made to Jacqueline Blunt.

WEYMOUTH VOCATIONAL SCHOOL

Report of the Director, Mr. Francis E. Whipple

This year a change has been made in the drawing program and a teacher employed for the purpose of teaching this subject in the Automobile and Cabinetmaking departments. This change does away with the necessity of arranging the program to fit with the high school program and should result in a better daily schedule. The classroom equipment for drawing was installed in the only available room in the vocational building. Next year a more suitable room for the purpose should be provided.

A waiting list in Automobile Repair was maintained for all boys applying after the close of school in June. Twenty-eight boys were on this list. Some were absorbed in the first four months of the current year, but many others became discouraged and elected other courses. In Sheet Metal work, the enrollment has been at capacity, but no waiting list has been set up. In Cabinetmaking and Printing, there is still a smaller than normal enrollment. These courses offer many fine post-war employment possibilities and should attract more boys.

A faculty committee is working on the problem of curriculum adjustment in the light of current and probable future needs. Some of the matters before the committee are:

1. Length of school day. Before the war the trend in industry was toward a shorter work day, and since one of the original reasons for a seven-hour day in vocational schools was to approximate industry's working hours, from this point alone a change could be justified. There are many other equally cogent reasons which seem to make it desirable.
2. The grade level of the specific vocational offering. Should vocational training for specific occupations be postponed to a later time in a boy's school career; for example, to grade 10 or 11, since the employable age after the war is certain to be eighteen or more?
3. What should be offered in Weymouth in the way of vocational-technical education on the level of grades 13 and 14, for the training of persons who may become technicians, supervisors and foreman in industry?

4. Since it has been apparent for many years that children electing vocational courses have not been fully informed about the aims of the courses open to them, the abilities required of a skilled craftsman, nor properly advised about trades in which they might be successful, the matter of vocational information, aptitude testing and other similar services which might be given to children prior to their making binding decisions on a trade which may be followed for a lifetime, is being studied.
5. Can boys be assisted further in making their choice by setting up a vocational exploratory general shop program to enable them to come in contact with some of the shop activities in the different trades?
6. What other trades might be offered in Weymouth with benefit to its youth?
7. What about special programs for adults and out-of-school youth just getting started in industry?

The total enrollment figures for the school period from September 9 to December 22 are given below:

	I	II	III	Total
Auto Repair	35	22	7	64
Cabinetmaking	12	10	5	27
Printing	7	4	2	13
Sheet Metal	29	16	18	63
	83	52	32	167

Last year there were 91 freshmen, 46 sophomores, and 28 seniors. Of this year's freshmen 4 were admitted as special students without completing the eighth grade, 43 had completed the eighth grade, 22 were members of or had completed the ninth, 6 the tenth, 1 the eleventh, and 7 were repeaters from last year. There were 30 non-residents enrolled, two more than last year.

For the first time in six years, not all graduates entered the trade for which they were trained. Of the 26 graduated, 20 entered the trades, 3 the armed services, 3 other employments.

I wish to extend to the Superintendent of Schools, to my assistant, to the teaching staff and to the members of the maintenance staff, my thanks for the excellent support and cooperation they have given me during the year.

REPORT OF THE REHABILITATION AND ADVISORY COMMITTEE

December 31, 1944

To the Honorable Board of Selectmen:

The Weymouth Rehabilitation and Advisory Committee as appointed by the Moderator under authority of the Annual Town Meeting March 6, 1944, submits herewith to your Board, and through your Board to the townspeople, our report for 1944.

Even though our activities were not too numerous the Committee, through the Executive Secretary, kept in touch and functioned wholeheartedly with the State Rehabilitation Committee and cooperated with our Administrator in the development of his department.

The Committee held four meetings during the year, organizing with the necessary officers at the first meeting held July 12, 1944. At this meeting arrangements were made for a second meeting held July 27, 1944, at which the functions of the Committee were outlined and discussed with the Chairman of the State Rehabilitation Committee, Rae Long, Commissioner of Veterans' Aid & Pensions.

From this point your local Committee endorsed and followed a plan outlined by the Administrator or Executive Secretary whereby an effort should be made to record all Weymouth men and women serving in the present emergency in accordance with Chapter 11, Acts of 1942. Although a rather slow procedure and with some obstacles to overcome, progress has been and is being made with the help of all organized units of activity in our town. It is hoped that by this effort, in addition to certain other listings now in effect, there will be made available to the town a full and complete tabulation of all Weymouth men and women who served or are serving in the Armed Forces of World War II, and provide a complete record for the office of the Adjutant General.

In closing, the Committee heartily endorses the selection of Administrator by your Board, commends the Administrator for the valuable service rendered the town, and thanks the organizations and various town departments for their earnest cooperation with the hope of continued success.

Frederick J. Boyle, Chairman

REPORT OF THE WEYMOUTH COMMITTEE ON PUBLIC SAFETY FOR THE YEAR 1944

The year 1944 has seen this committee continue its functions on a substantially curtailed sphere of activity.

The progressive military successes have lessened the probability of bombing attacks from enemy forces, but the development of the robot bomb and self-propelled aerial projectile has continued the threat of damage to our shores and sea-board communities.

Each favorable campaign since the day of invasion in June has put enemy action more effectively under control of our forces so that, as of the end of 1944, rocket attacks or robot bombs launched from a submarine or "suicide plane" would seem to constitute our most serious threat. However, as long as that remote threat exists it would seem prudent to preserve our protection equipment, installations and apparatus in a constant state of readiness, for if ever an attack is made, it will be timed for the least expected moment and destined to catch our forces off guard.

To assure constant readiness the Report Centre, Communication Lines, Audible Signal System, Hospital Centres, Fire, Decontamination, Auxilliary Police, Canteen Corps, and Motor Corps properties have, up to the present, been maintained in their entirety.

The personnel in the many Divisions will be on a "stand-by" status, and the regular drills and mobilizations curtailed. The personnel has

decreased in numbers owing to enlistments in the armed forces, and to removal from the Town. The remaining members would appear to be wholly adequate to cope with any probable need and there is no present intention to further recruit.

On the occasion of the September 14th hurricane, that portion of our forces that could be of emergency assistance were completely mobilized and ready for any call that might arise from danger to life, person or property. The services on this occasion were subject to direction by the Local Red Cross Chapter which, by prearrangement, takes over control in the event of domestic disaster.

It is the combined judgment of our Executive Committee and Division Chairmen that the organization should continue on the present basis until the European Phase of the war is determined or until we are advised by competent military authority that all danger of enemy attack has passed.

Renewing and repeating our message of previous years, our thanks and appreciation are gratefully tendered to the many officials, committee members and citizens of Weymouth whose continued sacrifices and contributions still assure the people of Weymouth of the greatest measure of protection we are able to provide.

Respectfully submitted,

Alfred C. Sheehy, Chairman
Herbert W. Causer, Vice Chairman
Helen J. Hunt, Secretary

REPORT OF THE WEYMOUTH ARMISTICE DAY COMMITTEE

The Armistice Day program of the three towns of Hingham, Braintree and Weymouth was held in Weymouth this year and with the financial assistance of the Town of Weymouth it was a huge success. We are able to keep our expenses to a minimum owing to the fact that three bands, namely the Naval Ammunition Band, the Braintree Sons of Legion Band and the Weymouth High School Band volunteered their services therefore we were able to return \$113.15 to the town out of the appropriation.

The various veteran and hereditary organizations of both Braintree and Hingham assembled with the ones from Weymouth and assisted us greatly. There were also two detachments of Marines from Hingham, the State Guard Companies, Red Cross, Boy Scouts and others who paraded with us.

We were pleased to halt the line of march to assist in the dedication of the Honor Roll to members of the Armed Forces from Weymouth serving in World War II.

The speaker of the day, Harold W. Fields, Judge Advocate of Norfolk County American Legion and Past Commander of the Brookline Post, A. L., gave a very interesting talk.

After the ceremonies at the Ralph Talbot Amphitheatre approximately 275 paraded to the Legion Hall where they partook of a lunch prepared by the Weymouth Post A. L. Auxiliary. This was a great convenience as a large number of the paraders went directly from Weymouth to Boston to take part in their ceremonies.

The Weymouth Armistice Day Committee and the committee of the Weymouth Post No. 79, American Legion under the leadership of Past Commander Everett T. Gardner, that handled most of the details of the day wishes to thank all the above and the townspeople for their assistance in making the day a success.

ANNUAL REPORT OF THE TOWN COUNSEL

Legal Department

January 13, 1945

To the Honorable Board of Selectmen

Gentlemen:

I submit my annual report as Town Counsel for the year ending December 31, 1944.

The law department of the town has had a rather busy year, but fortunately has not been engaged in expensive or prolonged litigation. The usual number of cases of alleged injury or damage which might be classified under the general heading of small claims have been brought against the town. Only one or two went to trial and the results in all instances have been relatively inexpensive.

The one legal matter that has assumed serious proportions has grown out of the alleged larceny of money in the amount of \$25,000.00 from the town by the ex-treasurer. After investigation, by vote of your Honorable Board, a demand was made upon the Travelers Indemnity Co., who had bonded the treasurer in the sum of \$56,300.00 conditioned upon his faithful performance of the duties of his office, for reimbursement in the sum of \$25,000.00. The first demand was made in August and though repeated in October and again in November, no payment was made. In response thereto the Travelers Indemnity Co. late in November or early in December filed a Bill in Equity in which they made the Granite Trust Company and the Town of Weymouth respondents. From their Bill it is made to appear that the ex-treasurer of the town did not steal from the town but that the Bank, the Granite Trust Company, has the money and have failed to account for it for the benefit of the town, and that they the Travelers Indemnity Co. owe the town nothing. I feel that this matter should have been adjusted by the Travelers Indemnity Co. upon demand, and that if they had rights against anyone else they could then pursue them. In the case of Lowell vs. Mass. Bonding & Insurance.

304 Mass. 153, 156.

in which the city treasurer paid out lawful obligations of the city illegally the Court said at page 156

"... but the plaintiff was entitled to have its funds remain in its treasury until lawfully disbursed. It is now entitled to have unlawful disbursements made good by the disbursing officer and his surety. The restoration to the city treasury of money unlawfully disbursed it not to be delayed by an inquiry into the rights, if any, that the defendant Flood and his surety might acquire against the plaintiff by reason of such restoration."

It might be added that the ex-treasurer faced two indictments of Larceny from the town and one from the bank and that he pleaded guilty to all three and was sentenced to from three to five years on each complaint. The judge ordered the two sentences imposed of from three to five years for larceny from the town to be served concurrently and the other to become effective thereafter. The ex-treasurer himself says he stole from the town. Surely this is some indication of larceny from the town, which the Travelers Indemnity Co. denies.

I have been a director of the Granite Trust Company for a number of years. When it appeared that it was impossible to secure reimbursement for the town from the Travelers Indemnity Co. or otherwise adjust the matter I decided that because of the duality of my position I would ask your Honorable Board to be relieved of any further connections with the matter. This you kindly assented to and appointed other counsel without any suggestion on my part as to whom such counsel would be. I had previously taken a somewhat similar position so far as dealing with the matter as director of the bank is concerned, and had myself recorded there.

It now appears to me to be a contest between the two surety companies as to which will have to pay the town and in what amounts. In any event there seems no real question but that the town will eventually receive its money in full.

May I thank you again and thru you the many employees and officials of the town for the consideration and courtesies shown me.

Respectfully submitted,
Kenneth L. Nash

REPORT OF THE TOWN ENGINEER

To the Honorable Board of Selectmen of Weymouth
Gentlemen:

I submit herewith, in brief as requested by your Board, my thirty-eighth annual report as Town Engineer of Weymouth.

The town survey work in general continues much as in previous years, augmented somewhat by the growth of the town, the continuation and expansion of the block system adopted in 1939, and other minor causes.

The various legal documents copied, given to the assessors, and used in the revision of the assessors plans fluctuate from year to year averaging around 1500 per year. I would urge the necessity and value of immediately recording and document or plan that might affect the title or ownership of any property, in order that the same may be properly assessed and also furnish protection to the owner.

The location and plotting of new dwellings, garages and other buildings including additions or changes to existing buildings and the removal of others were less than in 1943.

Due to the almost prohibitive cost of stone bounds and the scarcity of labor none were set the past year.

An Atlas of Weymouth, the first one showing the block system, was published early in 1944. Copies were furnished the various departments of the town and the balance sold.

The usual principal surveying and engineering work, curtailed as in 1943, was done for your Board or other departments of the Town. One feature I might mention was the location of and the preparation of a plan showing all of the existing permanent sidewalks, so called, in the town, and the nature of their construction, whether granolithic, brick, or tar.

The difficulty of obtaining at times the necessary assistants, due to the war, still remains.

In closing my thanks are extended to your Board, other town officials and departments, and many citizens for their courtesy to me and to my assistants.

Respectfully submitted,
Russell H. Whiting, Town Engineer

REPORT OF THE TOWN ACCOUNTANT

East Weymouth, Mass.

January 29, 1945

To the Board of Selectmen

Gentlemen:

Herewith is submitted the forty-third annual report of the Accounting Department. With this report I bring to a close twenty-five years of service as Town Accountant.

It would have been my wish to report more in detail and make some observations relative to the financial affairs of the Town, but at your request I have eliminated all subject matter except that considered vital as a matter of record.

Most unfortunate was the difficulty in which the one who held the office of Town Treasurer became involved. The activities of the Treasurer's office have always been conducted in an efficient and exacting manner. While the question of who is responsible for the apparent shortage in the funds of the Town is now subject to court action, it is the contention of this office that the Granite Trust Company did and is now improperly withholding from the Town of Weymouth the total amount involved.

It should be understood that this office is willing and anxious to make available any information relative to the financial affairs of the Town to any who may wish to visit the office.

I extend my thanks to your Board and to the personel of my office who have made possible the accomplishments of this department during a most trying year.

Respectfully submitted,

Emerson R. Dizer, Town Accountant

REPORT OF DENTAL CLINIC

February 6, 1945

At the opening of the school year in September the dental clinic planned and accomplished the task of examining the children of the first six grades of all schools. This examination shows that out of 2266 pupils examined 1086 were found to need immediate dental care. This represents 47% of the total number of the pupils examined.

We have strived in every way possible to attend to as many cases as the facilities of this clinic will allow. The necessity of the dental clinic may well speak for its self through the analysis of the summary which follows:

Total number of patients	537
Total number of permanent fillings	623
Total number of deciduous	116
Total number of permanent extractions	66
Total number of deciduous extractions	168
Total number of prophylaxis treatments	152
Total amount of money collected	\$80.94

May we thank the untiring efforts of those who have helped so unselfishly to make the dental clinic a success.

Respectfully submitted,

Mary A. Uracius, D. H.
